

Mission Creek / Mission Bay Community Meeting #3

Summary

February 2021

Waterfront Resilience Program

COMMUNITY MEETING #3 OVERVIEW

In support of public health efforts to slow the spread of COVID-19, the Port began hosting virtual meetings on the Waterfront Resilience Program (WRP) to offer flexibility to meeting attendees. These meetings sought to educate and engage the communities of the Central waterfront.

Multiple approaches were used to ensure broad outreach, and engagement during COVID-19.

- **Roadshow Presentations:** These presentations are typically 15-20 minutes in length with about 10-20 minutes for Q&A. These presentations were made to Community Based Organizations (CBOs), neighborhood committees, and/or convener groups
- **Co-hosted Meetings:** These are typically co-hosted meetings with a CBO. The presentation is longer (about 30 minutes) with opportunities for polls, questions, and other engagement activities within the presentation.

COMMUNITY MEETING #3 OVERVIEW

Summary of Meetings Conducted

| Meeting | Date/Time | Type |
|------------------------|--|-----------------------|
| Friends of Esprit Park | Tuesday, February 2, 2021 6:00 PM | Co-hosted Meeting |
| Mission Bay CAC | Thursday, February 11, 2021 5:00 PM | Roadshow Presentation |
| Potrero Boosters | Tuesday, February 23, 2021 7:00 PM | Roadshow Presentation |

COMMUNITY MEETING #3 OVERVIEW

Agenda

- Share program updates, recap earlier community feedback
- Update attendees on the US Army Corps of Engineers (USACE) Flood Resiliency Study, and other WRP efforts, including the Southern Waterfront Seismic Vulnerability Assessment, the Multi-Hazard Risk Assessment
- Introduction to “measures”
- Identify key priorities from community and stakeholder engagement

MEETING ATTENDANCE

Combined for the all meetings, approximately 71 people logged in

OVERVIEW: WHAT WE HEARD

We heard the following general comments and feedback from the community meetings

- Some individuals expressed concern at the **amount and highly technical level** of information being presented. They **requested copies of the materials** to review and digest
- Community members expressed the need to **remain apprised of project updates**. There were multiple questions on when the next meeting would be
- Attendees wanted to hear **more about costs and how the project would get funded**
- Community members raised questions **around soil subsidence**

OVERVIEW: WHAT WE HEARD

We heard the following general comments and feedback from the community meetings

- Given the virtual format of the meetings, having **opportunities for engagement** and discussion during the presentation worked better as opposed to presenting and having time at the end for Q&A
- Attendees expressed interest in **protecting and enhancing ecological features** of their neighborhoods such as **parks and green spaces**. Attendees from Potrero Boosters were particularly enthusiastic about organizing a park clean-up

Poll Question #1 – Friends of Esprit Park Co-hosted Meeting

What assets are we missing for Mission Creek and Mission Bay?

FEEDBACK FROM “ASSET MAPPING” EXERCISE

Mission Creek / Mission Bay Feedback

- Waterfront and Views
- Habitat
- Ballpark
- Commercial Districts
- Maritime
- Transportation
- Housing and Multi-Use Developments

- Mission Bay Hospital (UCSF)
- Utilities and Treatment Systems
- Maritime
- Transit
- Evacuation and Emergency Response, including Police Facilities

- Mission Bay Hospital (UCSF)
- Transportation Network
- Utilities/Treatment Systems/Pump Station
- Saltwater Inundation and Ecological Concerns
- Housing
- Evacuation/ Emergency Response

Feedback

1. Unrelated question – soil subsidence
2. Question – how are assets assisted by publicly traded companies?
3. Comment – “not sure if this falls into the “habitat” bucket, but **parks and green space**. Mission creek park is highly trafficked and utilized and would be impacted, for example

Poll Question #2 – Friends of Esprit Park Co-hosted Meeting

What Matters Most to you?

LET'S TAKE A QUICK POLL

What Matter's Most to You?

- **Design Life and Risk Reduced** – How long a project will provide risk reduction before requiring replacement? How much of the risk is being reduced and for how long?
- **Cost** – How much will a project cost? How does this compare with the design life?
- **Multiple functions** – Does the project provide multiple benefits? Public open space and flood risk reduction? Transportation improvements and risk reduction?

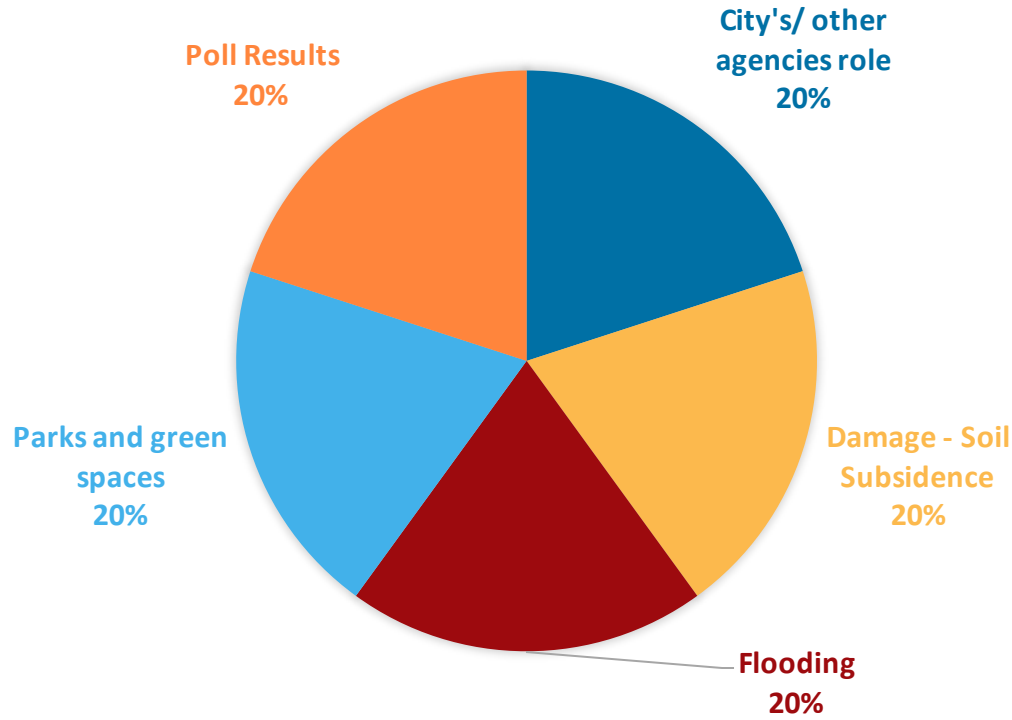

Initially, no responses, moved on with presentation for sake of time

- Poll results:
 - 43% Design Life and Risk Reduced
 - 7% Cost
 - 50% Multiple Functions

Friends of Esprit Park – Feedback Overview

Type: Co-hosted Meeting | Tuesday, February 2, 2021

Graph 1 - Pie chart categorizing the questions and comments from this meeting

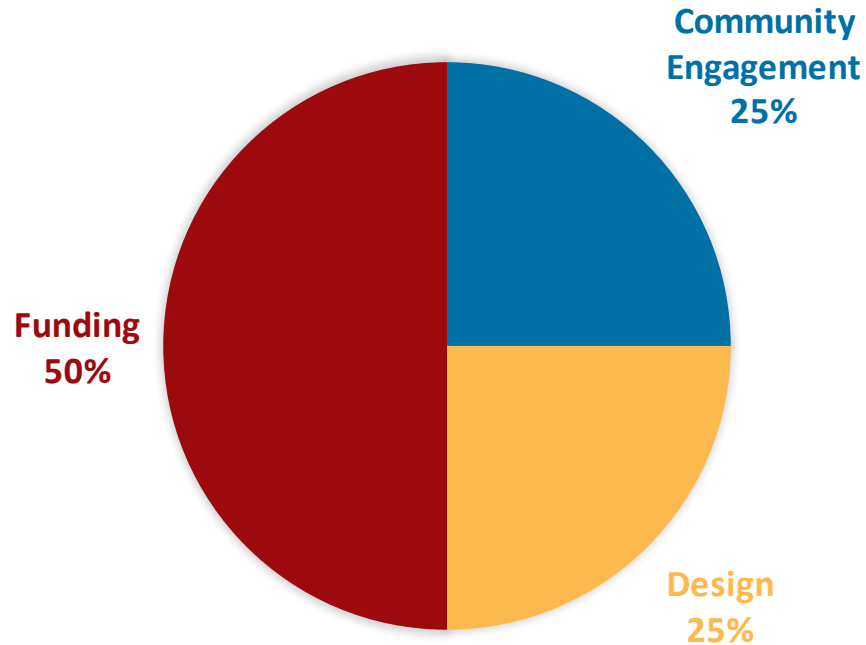

Friends of Esprit Park – Specific Feedback

Type: Co-hosted Meeting | Tuesday, February 2, 2021

| TYPE | CATEGORY | COMMUNITY FEEDBACK |
|----------|-----------------------------|--|
| Question | Damage - Soil Subsidence | On walks in the Dogpatch I see soil subsidence and soil cracking...soil pulling away from the building |
| Question | City's/ other agencies role | How are some of these assets assisted by publicly traded companies and not just the city? |
| Comment | Parks and green spaces | Not sure if this falls into the “habitat” bucket but parks and green space |
| Question | Flooding | Have you partnered with or had conversations with other communities worldwide who may already be experiencing flooding and what they’re doing to mitigate? |
| Question | Poll Results | Did we finalize the poll results? |

Mission Bay CAC – Feedback Overview

Type: Roadshow Meeting | Thursday, February 11, 2021

Mission Bay CAC – Specific Feedback

Type: Roadshow Presentation | Thursday, February 11, 2021

| TYPE | CATEGORY | COMMUNITY FEEDBACK |
|----------|----------------------|---|
| Question | Funding | I see that the repairs budget is at \$450 Mil, [later of admin and had grand jury, existing seawall] ranges from aquatic park around to Oracle Park, \$3.7 Mil? |
| Question | Funding | What about the area south of arena [Oracle Park]? |
| Comment | Community Engagement | This was a good report, but very quick to be understood completely - like repairing MUNI, we need to get it into our thinking this will be ongoing, not sure how to help, but Port needs help with outreach |
| Question | Design | Has seawater rise been factored into the design? |

Potrero Boosters – Feedback Overview

Type: Roadshow Presentation | Tuesday, February 23, 2021

Graph 3 - Pie chart categorizing the questions and comments from this meeting

Potrero Boosters – Specific Feedback

Type: Roadshow Presentation | Tuesday, February 23, 2021

| TYPE | CATEGORY | COMMUNITY FEEDBACK |
|----------|-------------------|---|
| Question | Crane Cove | I love what's happening at Crane Cove but I'm wondering what's the status of the cranes? |
| Question | Covid Relief Bill | David, there was a story in the paper a few weeks ago that the Port got a grant for SLR improvement as a part of one the COVID Relief bills. Can you tell us if the legislation passed? How big the grant is and what it will be used for? That grant sounds super promising... |
| Question | The Ramp | David- on a more mundane issue- do you know if your tenant The Ramp will re-open? They seem to have missed quite an opportunity the past year. |
| Question | Warm Water Cove | On another issues Warm Water Cove does not look very inviting to go back in that area. Looks like a set for a drug deal on Chicago PD also how do I report the growing graffiti problem at Heron Head. 311 has never heard of Port Parks So most submissions get closed by Rec and Park as Not my job |
| Question | Funding | Are those funding priorities still neighborhood priorities? It makes sense to do another neighborhood survey on priorities |
| Comment | Tours | To be fair, there has been a lot of construction and access has been really impaired east of Illinois... Current Covid rules basically rule out all tours, we love tours but can't do them right now with current SF rules. |
| Comment | Homeless | Hi David, et all, we can also have a volunteer program to keep it engaging. It feels more out of the way or worst homeless encampments. |

Potrero Boosters – Specific Feedback

Type: Roadshow Presentation | Tuesday, February 23, 2021

| TYPE | CATEGORY | COMMUNITY FEEDBACK |
|----------|-------------------|--|
| Question | Temporary Housing | with the increased density for residential living how can the port assist in resilience for temporary housing/power/infrastructure in the case of temporary displacement |
| Comment | Warm Water Cove | Thank you J.R. and David. I'm happy to be part helping Warm Water come alive post covid |
| Comment | Warm Water Cove | Janet C headed up volunteer efforts at Warm Water for a couple of years. It became pleasant for a while but is a real challenge to maintain. |
| Comment | Warm Water Cove | A few years back the Port supported an informal volunteer effort at Warm Water Cove, spearheaded by Janet Carpinelli. The Port let us use tools from their supply. |
| Comment | Warm Water Cove | Hi Keith! I agree it is tough to maintain, but with all that is coming in the future, we must set a plan. |
| Comment | Crane Cove | David, you deserve a big round of applause. Crane Cove Park blew past very high expectations from the neighborhood. |
| Comment | Crane Cove | Crane Cove Park has been a godsend to the neighborhood ! |
| Comment | Crane Cove | We'd be happy to rally club members for a cleanup. |
| Comment | Warm Water Cove | HI Carlin, yes, I did help out along with Janet C. |
| Comment | Crane Cove | Saturday morning, Coffee, Cake, and Cove Clean Up... |
| Comment | Warm Water Cove | CRANE COVE PARK ROCKS |
| Comment | Crane Cove | Crane Cove park is a game changer! |

WE HOPE TO SEE YOU AT A FUTURE COMMUNITY MEETING!
