**BUILDING PERMIT APPLICATION PROCEDURE**

The Port Building Permit Process begins with the submittal of an application and required drawings/documents to the Building Permit Group (BPG), Engineering Division, located at Pier 1, The Embarcadero, 2<sup>nd</sup> Floor. Once submitted, the process requires preliminary review and approvals from the Real Estate, Maritime and/or Planning Divisions prior to the application being accepted (“filed”) and routed for plan check reviews for compliance with the Port of San Francisco Building Code (PBC). Depending on the scope of work, the process may also require review and approval from other San Francisco City agencies with regulatory concerns including, but not limited to, Fire Department (SFFD), Mayor’s Office on Disability (MOD), Public Utilities Commission (SFPUC) and/or Department of Public Health (DPH).

Port Building Permit applications and related documentation are then routed for proprietary and conditional use reviews to the Real Estate, Maritime and Planning Divisions. **(Restaurants and other Food Service Establishments** require review and approval by SFPUC’s Wastewater Enterprise, Collections Systems Division *prior* to SF Port building permit issuance. For additional information, call **SFPUC/WWE/CSD at 415-695-7310** or go online [www.sfwater.org](http://www.sfwater.org) – *Community Resources- Wastewater Pretreatment-FOG*.) Upon receiving the required preliminary approvals, BPG will file the application and create a routing workflow for the Engineering Division code compliance reviews. The workflow may include plan review of structural and/or civil engineering; architectural design, barrier free accessibility; mechanical, electrical and plumbing designs; and, depending on the scope of work, review by the Port Fire Marshall and/or Port Environmental Specialist for compliance with the Fire Code and environmental concerns pertinent to the Port’s jurisdictional area.

**FACILITY IDENTIFICATION NUMBER (FIN)**

A Facility Identification Number (FIN) is required to process all permit applications. SF Port FIN information is available online at [www.sfport.com](http://www.sfport.com) under *Business-Permit Services-Lease Maps* and at the Building Permits desk at Pier 1, The Embarcadero, open Monday through Friday, 8:30 A.M. to 11:30 A.M.

**INSPECTIONS**

BPG is responsible for inspections of new building construction, as well as work including additions, alterations, tenant improvements and renovations; and inspections of buildings or tenant spaces involved in a change of occupancy (use) to ensure compliance with the Port of San Francisco Building, Mechanical, Electrical and Plumbing Codes.

After Permit Issuance: To schedule a **Building Inspection**, call the *Inspection Request Line (415) 274-0561* (permit number required). **For Fire Inspections call (415) 274-0677.**
