MEMORANDUM

February 18, 2022

TO: MEMBERS, PORT COMMISSION
Hon. Willie Adams, President
Hon. Doreen Woo Ho, Vice President
Hon. Kimberly Brandon
Hon. John Burton
Hon. Gail Gilman

FROM: Elaine Forbes 
Executive Director

SUBJECT: Fiscal Year 2022-23 and 2023-24 Biennial Operating and Capital Budgets
and the Acceptance and Expenditure of Federal Stimulus

DIRECTOR'S RECOMMENDATION: Approve the Attached Resolutions No. 22-09 and 22-10

EXECUTIVE SUMMARY

This report was first issued for the February 8, 2022 Port Commission meeting. Updated information to address commissioner questions is underlined and in italics.

This item provides an overview of the Port's proposed Fiscal Year (FY) 2022-23 and FY 2023-24 biennial operating and capital budgets, the five-year Capital Improvement Program, and the acceptance of federal stimulus funding to allow for Port Commission and public feedback.

The COVID-19 pandemic continues to create unprecedented economic pressure on the Port with revenue losses of nearly 40%. While the economy has somewhat recovered from the onset of the pandemic in March 2020, full recovery is anticipated to take five years, with tourism spending expected to return to pre-COVID levels in FY 2025-26.

Under the leadership of the Port Commission, the Port has met these financial challenges by reducing \$60 million in expenses through a combination of expenditure reductions, operating efficiencies, hiring delays, decreases to capital investments, defunding prior capital projects, and use of fund balance. But cuts alone cannot sustain this organization, and in the last year staff has begun to develop and implement economic recovery

initiatives to restore the Port's financial health.

In December 2021 the Port achieved a critical economic recovery success when the State Lands Commission approved \$56.6 million in federal relief. Port staff anticipates an additional allocation of \$58.2 million for a total of up to \$114.8 million from the federal American Rescue Plan Act (ARPA). These dollars provide the Port with a two-year reprieve. The federal funding will allow the Port to support ongoing operating and capital expenses including basic services such as keeping the Port clean and safe, supporting small businesses, and addressing deferred maintenance during the next two fiscal years.

This funding permits the Port to:

- Restore many of the difficult cuts the Port made in FY 2020-21 and 2021-22, including backfilling vacant positions and restoring equipment and supply budgets;
- Avoid additional budget reductions in the next two fiscal years; and
- Support strategic investment in economic recovery to ensure sustained financial health.

While the Port has successfully controlled operating and capital costs to maintain operations during the pandemic, inflation continues to increase labor and other operating costs. Port staff predicts that even after tourism recovers to pre-pandemic levels, the Port's net operating income will be severely constrained, reducing funds available for capital investment in FY 2024-25 and thereafter.

Therefore, during the two-year respite provided by stimulus funding, the Port must develop and implement mid- and long-term economic recovery initiatives that generate new revenue, create additional operating efficiencies, and identify external funding such as federal and state infrastructure dollars. This work, which will focus on activating the waterfront and attracting and retaining a diverse set of tenants, will bring back Port revenue, realign revenue and expenses, restore its fund balance, and set it on sound economic footing.

Key economic recovery strategies over the next two years include:

- Identify new revenues and savings;
- Retain staffing levels to deliver on key functions;
- Identify programs and policies that drive tenant recovery and new leasing;
- Foster a workplace willing and resourced to evaluate systems and rules that no longer serve the Port; and
- Implement strong financial policies to maintain prudent fund balance.

The focus of this staff report is the FY 2022-23 and FY 2023-24 operating and capital budget. However, in order to provide a comprehensive financial perspective to the Port Commission and public, this staff report presents various interconnected financial items, and is structured as follows:

1. Economic Outlook
2. Strategic Objectives
3. Sources and Uses in the Fiscal Year 2022-23 and 2023-24 Biennial Budget

- a. Ongoing Sources
 - b. One-time Sources
 - i. ARPA stimulus
 - c. Operating Expenses in FY 2022-23 and 2023-24
 - d. Capital Investment
 - i. Five-year Capital Improvement Program
 - ii. Capital Budget in FY 2022-23 and 2023-24
4. Required Reserves
 5. Conclusion

1. ECONOMIC OUTLOOK

The revenue losses associated with COVID-19 are without historical precedent. The Port's revenue portfolio relies heavily on tourism and retail, and as its tenants have suffered losses, and in some cases ceased operating, Port rents have fallen commensurately. Despite significant progress on vaccination levels in San Francisco, COVID variants continue to create significant uncertainty around the timing of a rebound to pre-pandemic levels of tourism.

Using Port revenue data since the pandemic's onset, guidance from the Controller's Office, and input from tenants, Port staff has developed low, base, and high five-year revenue scenarios with the following assumptions:

1. Base Scenario: This case is the most likely scenario and was used as the basis for the proposed budget. This scenario follows the Controller's assumption that tourism spending returns to pre-pandemic levels in FY 2025-26¹. This case also assumes that four vacant restaurant spaces are re-leased and generating revenue by the end of FY 2024-25. This case assumes office rents remain flat as the market adjusts to increased telecommuting, which the Controller estimates to be 15% of office workers.
2. Low Scenario: This represents a worse case, with an additional year for tourism to return to pre-pandemic levels. This case assumed eight restaurants will not reopen (base case assumes four), with a 2.5-year vacancy period for eviction and releasing. This case further assumes telecommuting is more pronounced at 30% of office workers.
3. High Scenario: This represents a better case, with tourism returning a full year earlier. This version assumes the replacement of parking lots with parking meters in FY 2025-26, increasing the net revenue of the lots. This version matches the restaurant assumptions in the base scenario.

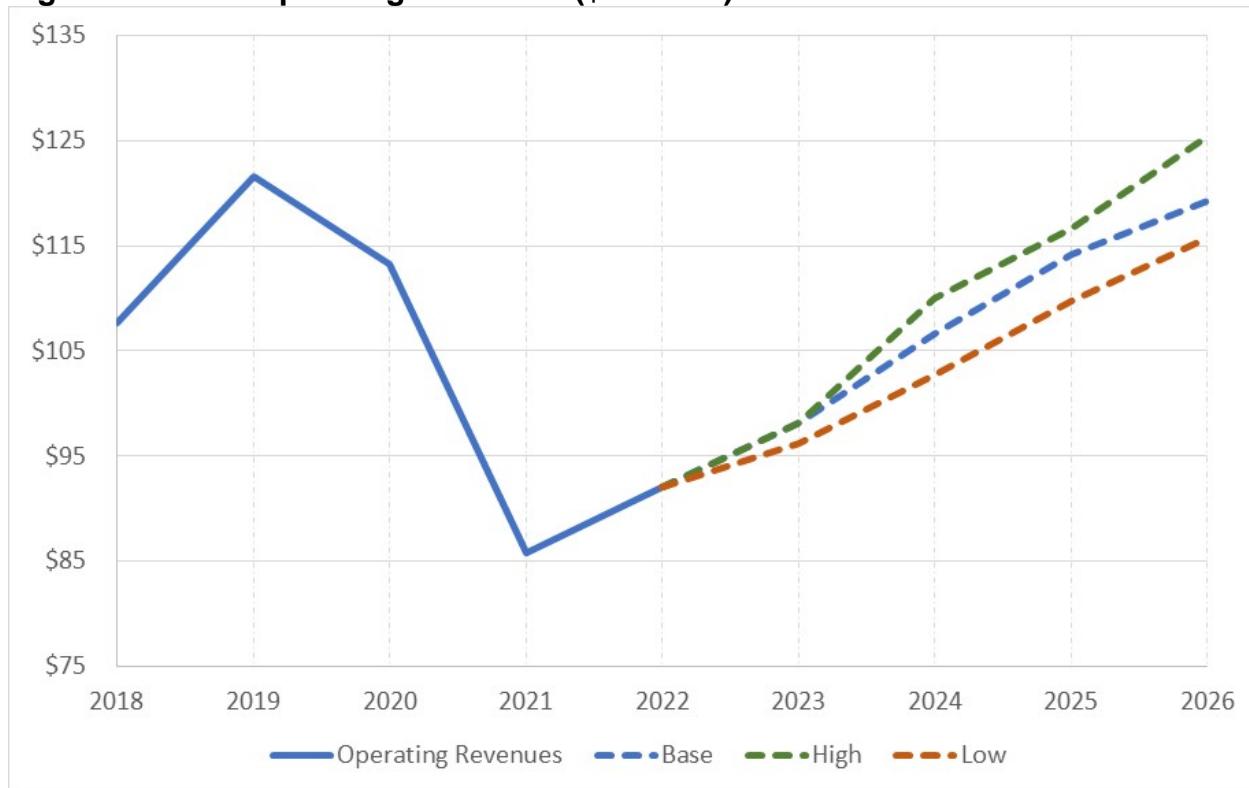

The uncertainty surrounding these forecasts cannot be overstated. Variances beyond the Low to High scenario range are possible if (a) additional COVID variants of concern continue to depress tourism and the return to office, (b) telecommuting becomes even more prominent (beyond the 30% of officer workers assumed in the low forecast), driving

¹ Port staff used the Controller's estimates for hotel tax revenue as a proxy for tourism spending. Hotel taxes are based on the number of tourists buying hotel rooms, as well as the price of those rooms. The Controller's estimates show the number of tourists returning in FY2024-25, and hotel taxes recovering a year later in FY 2025-26 when hotel room pricing rebounds to pre-pandemic levels.

down office demand and the commuting customer base for the Port's monthly parking operations, restaurants, and ferry operators, or (c) broader economic pressures from inflation or other factors prolong the recovery.

Figure 1-1 below reflects historical data and the scenarios described above. This graph excludes the impact of one-time revenue sources such as federal stimulus to better illustrate the impact of COVID on ongoing Port operations. Notably the range between the high and low cases is roughly \$10 million in FY2025-26, suggesting that under any scenario net operating income will be severely constrained, leading to reduced capital funding.

Figure 1-1: Port Operating Revenues (\$millions)

To date, the Port has managed the pandemic recession through a combination of expenditure reductions, decreases to future capital investments, defunding prior capital projects, and use of fund balance. While this approach has maintained critical operations and minimized short term impact to the organization, its impact on Port capital investment is unsustainable in the long term. The Port has a \$1.0 billion state of good repair capital backlog and forecasted need of an additional \$1.0 billion in capital over the next ten years. To ensure the long-term sustainability of its facilities and the revenue they generate, the Port must continue to invest in capital. Similarly, reliance on fund balance, the Port's sole reserve, as an ongoing tool to support capital and operations is untenable without substantially risking the organization's bond ratings as well as its ability to withstand additional unforeseen events. Fund balance makes the Port a resilient organization and must be maintained at an adequate level to help the organization weather future crises.

In the face of the challenges identified in the five-year financial outlook, staff began to identify short-, mid- and long-term economic recovery strategies in winter 2021. The allocation of up to \$114.8 million in ARPA federal stimulus funding was the key outcome of this early work, providing staff the time to develop revenue initiatives, find operating efficiencies and seek outside funding for capital investment to restore the Port's financial health.

Other short-term economic recovery initiatives that the Port successfully implemented in the last year include:

- Tenant Recovery: Worked with tenants to recover from the impacts of the pandemic through rent relief.
- Shared Spaces Program: Continued no cost use of Port space for outdoor dining.
- Pilot Mobile Vending Permit Program: Created a program to offer low-barrier entrepreneurial opportunities on the Port.
- Waterfront Activation: Solicited responses from businesses interested in activating Port property through music events, food markets and other community building events.
- Restoration of Cruise Services: Developed a process to safely allow cruise calls, activating the waterfront with 20 cruise calls in the last quarter of 2021.
- Live Crab Sales: Authorized direct-from-vessel sales of live crab to support the commercial fishing fleet and help activate Fisherman's Wharf.
- Consolidation of Port Finance Staff: Reorganized Port finance staff to improve service to business divisions and reduced the number of staff from eight to five.

The financial impact of these measures is reflected in Figure 1-2 which shows the base scenario of the five-year forecast. Most importantly, as the table illustrates, these early economic recovery initiatives allow the Port to rebuild its fund balance to ensure resiliency despite the uncertain financial times.

Figure 1-2: Base Case Fund Balance Forecast through FY 2025-26 (\$millions)²

	Estimated CY	Next Biennial Cycle		Following Biennial Cycle		Outyear

As staff considers mid- and long-term initiatives to restore financial stability, it is encouraged by the Port's success to date. Every Port division will continue to develop and implement economic recovery actions, focusing on strategic leasing to attract and retain diverse tenants and activate the waterfront, smart financial policies, and other initiatives.

Mid and long-term concepts to support activation of the waterfront and the Port's economic stability include:

- Creation of a staff position to develop a multi-year economic recovery strategy and

² Note the Current Year figures for FY 2021-22 reflect current estimates for year-end actuals as reported to the Controller in the Port's Six-Month report, not the budgeted amounts shown in Section 3 figures. Similarly, ARPA Stimulus is shown Figure 1-2 above in FY 21-22 but was not previously budgeted so it does not appear in Section 3 figures.

³The Supplemental/Defunding shown in Figure 1-2, previously approved by the Port Commission on April 27, 2021, as part of the FY21-22 supplemental budget appropriation, was an effort to replenish fund balance (which had a pre-pandemic amount of \$68.5 million) using funds from lower priority, undefined, significantly underfunded, or completed projects requiring close-out.

- support implementation of strategies across the organization.
- Port funding for tenant improvements to support improvement of Port property and encourage earlier participation by the Port in percentage rent.
- Development of a long-term leasing strategy to re-occupy Port properties, particularly restaurants and retail spaces.
- Continued effort to advance development projects at Piers 38 and 40 and Piers 30-32 and SWL 330, and to pursue development opportunities at additional historic piers.
- Creation of a menu of public events and pop-up opportunities to draw visitors to the waterfront.
- Development of new lay berthing opportunities.
- Collaboration with the terminal operator to attract new types of cargo to Pier 80.
- Formation of a community facilities district over the Orton development at Pier 70 to support maintenance of Crane Cove Park.
- Development of a cost allocation plan to ensure that funding sources outside of the Harbor Fund support their fair share of the Port's administrative overhead.
- Development of tools to build a strong staff, including mentorship and promotional paths and streamlined systems to promote work.
- Development of a strategies to secure infrastructure funding from the federal and state governments to support key Port capital needs.

Between February 2022 and June 2024, Port staff will cultivate these and other economic recovery initiatives to make a meaningful impact on the Port's revenue and operating and capital budgets. Staff expects to significantly improve the five-year outlook with the goal of increasing net operating revenue and reaching the Port Commission's capital policy requirements by the end of the five-year period.

2. STRATEGIC OBJECTIVES

Despite the challenges posed by COVID-19, the proposed FY 2022-23 and FY 2023-24 budgets include actions that advance all seven goals of the Port's Strategic Plan:

- 1. Economic Recovery*
 - a. Leveraging stimulus funds to attract and retain tenants, provide a safe and attractive waterfront for tourism, and support communities disproportionately impacted by COVID.
- 2. Productivity*
 - a. Restoration of equipment and materials and supplies budget to pre-COVID levels
 - b. Funding to improve the maritime cargo terminal at Pier 80
 - c. Identify maritime opportunities for the revitalization of select parcels at the Pier 68 Shipyard
 - d. Supports creation of resilient and diverse neighborhoods at Pier 70 and Mission Rock
 - e. Identify operating efficiencies including implementation of a new enterprise asset management system and development of an overhead cost allocation

plan to reduce costs, support staff and improve service delivery

3. *Equity*

- a. Resources dedicated to implementation of the Racial Equity Action Plan including funding for ongoing Port-wide training for all employees on the root causes and societal sustained practices that created racial inequity and the efforts of the Port to address these inequities.
- b. New apprenticeships in the Maintenance division to create job ladders among the trades.
- c. A new property manager to supervise and activate public space.
- d. Significant new LBE contracting opportunities due to increased capital investment through federal stimulus funding.

4. *Resilience*

- a. Continued funding for the Waterfront Resilience Program to support planning to address the dual threats of earthquake and flooding risk.

5. *Sustainability*

- a. Includes funds for storm water capture, improvements to sewer infrastructure and a match to a grant to restore the Heron's Head Park shoreline.

6. *Evolution*

- a. A new property manager to supervise and activate public space
- b. CFD financing to support Crane Cove park operations

7. *Engagement*

- a. Resources to support proactive Port marketing of real estate opportunities, community engagement, and media relations.

3. FY 2022-23 and FY 2023-24 BIENNIAL BUDGET

The proposed biennial budget provides mission critical services and capital investments as shown in Figure 3-1 below.

Figure 3-1: Port Sources and Uses

	Budget	Proposed	Change from		Proposed	Change from	
	<u>2021-22</u>	<u>2022-23</u>	<u>Amount</u>	<u>%</u>	<u>2023-24</u>	<u>Amount</u>	<u>%</u>

Stimulus	\$0.0	\$73.5	\$73.5	n/a	\$27.3	-\$46.2	-62.9%
One-time, Subtotal	\$40.6	\$80.6	\$40.0	98.5%	\$27.3	-\$53.4	-66.2%
Total Sources	\$131.7	\$192.9	\$61.2	46.5%	\$148.8	-\$44.1	-22.9%
Uses							
Operating Expenses	\$91.6	\$102.0	\$10.3	11.3%	\$103.3	\$1.4	1.4%
Programmatic Projects	\$3.0	\$3.0	\$0.0	-0.1%	\$3.1	\$0.1	4.6%
Development Projects	\$8.0	\$8.8	\$0.8	9.7%	\$9.4	\$0.6	6.9%
South Beach Harbor	\$3.8	\$3.9	\$0.1	3.7%	\$4.0	\$0.1	2.6%
Operating Expenses, Subtotal	\$106.4	\$117.6	\$11.2	10.6%	\$119.9	\$2.2	1.9%
Port Capital Appropriations	\$8.3	\$13.3	\$5.0	60.2%	\$15.0	\$1.7	12.8%
Grant-Funded Projects	\$1.7	\$1.0	-\$0.8	-43.3%	\$0.0	-\$1.0	-100.0%
Stimulus Funded Projects	\$0.0	\$54.8	\$54.8	n/a	\$7.5	-\$47.3	-86.4%
South Beach Harbor	\$1.2	\$1.1	-\$0.1	-5.3%	\$1.2	\$0.0	3.9%
Capital Budget, Subtotal	\$11.2	\$70.2	\$59.0	524.8%	\$23.7	-\$46.6	-66.3%
Fund Balance Contribution	\$13.5	\$5.0	-\$8.5	-63.0%	\$5.3	\$5.3	106.0%
Total Uses	\$131.1	\$192.9	\$61.7	47.1%	\$148.8	-\$44.1	-22.8%

Note that the capital project defunding previously approved by the Port Commission in the FY 2021-22 budget provided a significant one-time source of funds for critical Port operations and restoration of fund balance, but such defundings are not a viable source for continued use and are not proposed to support operations in the proposed biennial budget period.

3a. Ongoing Revenues

The biennial budget is supported by a variety of ongoing sources, most significantly from rents, fees, and fines from use of our property. The figures below reflect the base scenario discussed in the Economic Outlook section above and are the basis of the proposed biennial budget. See Attachment I for details by revenue type.

Figure 3-2 Operating Revenues (\$millions)

	Budget 2021-22	Budget 2022-23	Change from FY2021-22 Budget		Budget 2023-24	Change from FY2022-23 Budget	
	Amount	Percent	Amount	Percent	Amount	Percent	
Maritime	\$19.7	\$22.5	\$2.8	14.1%	\$22.9	\$0.4	15.7%
Real Estate	55.5	72.6	17.2	30.9%	80.8	8.2	48.0%
Other	2.8	3.0	0.2	7.8%	2.8	-0.2	-93.8%
TOTAL	\$78.0	\$98.1	\$20.2	25.9%	\$106.6	\$8.5	42.0%

Maritime Revenues – Maritime tenants (with the exception of cruise operations from March 2020 through September 2021) demonstrated revenue stability during the COVID-19 pandemic. Looking forward, decreases in cargo operations reflect anticipated export volume decreases at the Pier 80 cargo terminal, while increases in cruise revenues reflect the return of cruises to historic levels, at over 100 calls per year. The Port's capacity for additional cruise calls above and beyond 100 is limited, with its ability to accommodate shore power limited to its primary cruise berth plus 19 cruise calls allowed at Pier 35.

Real Estate Revenues – Growth in parking, excursion, and percentage rents reflect the expected return of tourists and commuters to the waterfront, while more stable revenue sources such as shed, office, and land rent are predicted to maintain current levels.

- Tourism can generally be categorized into three equal spending groups: leisure tourism, business travelers, and conventions. Leisure travel has already begun to rebound, but business travel and conventions (which require years of lead time to plan) will trail. As of December of 2021, the Port has seen increases in tourist activity on the waterfront, but city-wide hotel occupancy has remained fairly flat at less than 50% (where pre-COVID occupancy was nearer to 80%). The Controller's Office projects that hotel occupancy will return to pre-COVID levels in FY 2024-25, but hotel rates (and therefore overall tourist spending) will remain below pre-COVID levels for another year.
- Parking meter activity on the Port has rebounded quickly, reflecting patterns of travel that have shifted heavily away from transit and into vehicles (BART ridership is at less than 25% of pre-COVID volume, but bridge crossings are at nearly 100%).
- Office, shed, and land rents are predicted to remain flat through FY 2023-24, with any inflationary growth offset by decreasing office demand as telecommuting becomes more common.
- Revenues will also be positively impacted by leasing activities planned as vacancies are filled and staff begin to improve marketing follow-up on tenant leads and dedicate efforts to fill vacancies requiring competitive processes.

South Beach Harbor – South Beach Harbor generates revenue as a full-service marina consisting of 700 slips with concrete docks and Pier 40. Harbor revenues have remained relatively stable through the pandemic, and the proposed budget reflects inflationary increases to berthing fees. Harbor revenues are dedicated to supporting harbor operations and capital investment.

Development Recoveries – The City's cost to support major development projects such as Mission Rock and Pier 70 are reimbursed by the respective developers. Those recoveries are reflected in the budget as revenue but have a neutral fiscal impact to the Port because

of the direct offset to expenses.

Orton CFD – Port staff expects to form a community facilities district (CFD) at Pier 70 for the Orton development area in time to generate revenue in FY 2023-24. This CFD is a component of the development agreement executed with Orton, but execution of the CFD was delayed due to the pandemic. Approval is subject to future Port Commission and Board of Supervisors approval.

3b. One-Time Sources

Shipyard Power Capacity – The Port and the San Francisco Public Utilities Commission (PUC) entered into an agreement for the Port to use its right to use the shipyard's high voltage capacity while the PUC builds infrastructure in the area. This short-term agreement which will generate \$1.2 million in the budget, is not anticipated to continue after FY 2022-23.

Capital Defunding – The proposed biennial budget does not include any defunded capital projects as a revenue source. The \$38.3 million defunded executed by the Port Commission as part of the FY 2021-22 Supplemental Appropriation allowed the Port to replenish fund balance while supporting ongoing critical operations. That one-time exercise is not a viable ongoing source and is not included in the proposed budget.

Grants – The budget includes the appropriation of \$1.0 million in grant funding awarded to the Port for the Heron's Head Park restoration project.

Transfer of Land to the Fire Department – The proposed budget includes \$5.0 million in proceeds from the sale of Port property at 1236 Carroll Avenue in the southern waterfront to the Fire Department to develop as a training site. The amount is subject to subsequent Port Commission and Board of Supervisors approval.

3b-i Stimulus: American Rescue Plan Act

President Biden signed ARPA into law in March of 2021, providing billions in federal stimulus to state and local governments, including \$27 billion for California and \$454 million for the City and County of San Francisco. This program has broad spending eligibility, allowing recipients to pay for the cost of responding to the pandemic and the associated economic losses.

Under the leadership of the Port Commission and in conjunction with the California Association of Port Authorities, Port staff successfully identified \$250 million of the State of California's ARPA allocation for distribution to California ports to offset pandemic-related economic losses. In November, the State of California, acting through the State Lands Commission, invited ports to apply for ARPA funding in amounts up to their revenue losses in calendar year 2020. The state's eligibility guidelines largely followed the federal government's, with expenses from March of 2020 through June of 2024 eligible for reimbursement or payment using ARPA funding. Eligible uses were broadly described in the state's budget and subsequently expanded and clarified by the State

Lands Commission, and are summarized below⁴:

1. Avoiding Layoffs and Restoring Jobs
2. Generating Economic Growth
3. Restoring Efforts Delayed or Deferred by COVID
4. Helping Communities Disproportionately Impacted by COVID

In December, the State Lands Commission awarded \$136 million to various ports, with the Port of San Francisco receiving \$56.6 million during the first round of ARPA allocations. In order to distribute remaining ARPA funds, the State Lands Commission expects to solicit another round of applications in Spring of 2022. This process will evaluate revenue losses that California ports sustained in calendar year 2021. Staff currently estimates 2021 losses at \$58.2 million⁵, such that the total ARPA award could equal up to \$114.8 million.⁶ Under the state's ARPA guidelines, all funds allocated to ports must be expended by June 30, 2024. The Port plans to allocate \$14.0 million of stimulus funds to FY 2021-22 expenses and the remaining \$100.8 million to FY 2022-23 and 2023-24.

Figure 3-3: Uses of ARPA Funds by Category (\$millions)⁷

Use Category	FY21-22	FY22-23	FY23-24	TOTAL
1. Avoiding Approximately 50 Layoffs		\$7.2	\$9.0	\$16.2
a. Direct Layoffs Avoided		5.4	5.4	10.8
b. Retirements/Vacancies Unfilled During COVID		1.8	3.6	5.4
2. Attracting Businesses and Customers to the Waterfront	11.8	31.7	7.4	51.0
a. Supporting a clean and safe waterfront for tourism	9.0	5.8	5.8	20.7
b. Filling Port vacancies and driving revenue	0.8	12.0	1.6	14.4
c. Investing in Maritime Tourism and Cargo Operations	2.0	13.9		15.9
3. Restoring Investments Delayed/Deferred/Cut due to COVID	1.0	23.2	9.3	33.5
a. Capital Projects and Critical Capital Resources	1.0	19.9	7.5	28.4
b. Operating Expenses		3.3	1.8	5.1
4. Helping Communities Disproportionately Impacted by COVID	1.2	11.3	1.6	14.1
a. Supporting the Community	0.6	1.7	1.2	3.5
b. Supporting Businesses	0.6	9.7	0.4	10.7
Total	\$14.0	\$73.5	\$27.3	\$114.8

⁴The summaries provided above more clearly describe the uses as they relate to the Port of San Francisco. The general categories described in the State's budget and by the State Lands Commission include: mitigate the negative impacts of COVID, generate economic growth, restore jobs and services, support safe operations, avoid layoffs, support Port operations, restore deferred maintenance or capital investment deferred or delayed, benefit marginalized communities or those which were disproportionately impacted by COVID, and benefit the public.

⁵ Accounting data for the end of 2021 is expected to become available in late February. The delay between the end of the month and accounting data becoming available is typically approximately four – six weeks.

⁶ Because the remaining ARPA funds to be distributed by the State Lands Commission are constrained, future awards are subject to change. If available funds are lower than \$114.8 million, Port staff will decrease expenditures in that same amount after considering input from leadership and the ranking results from the CIP process.

⁷ *Figure 3-3 was updated from the February 8, 2022 version to reflect (a) the returning the Grain Silo Demolition Design project to its original category in the application to the State Lands Commission (Use Category 4b), and (b) shifting funds from Maintenance Dredging (in Use Category 2a) to the TI Fund for Tenant Attraction/Retention (in Use Category 4b).*

Staff will appropriate this total possible award of \$114.8 million in ARPA funding to the Port's budget through two separate legislative methods: 1) an accept and expend resolution for \$14.0 million in the current fiscal year, and 2) an accept and expend agreement for the remaining funds that the Board of Supervisors will review in parallel with this biennial budget for FY 2022-23 and FY 2023-24. The Port will use ARPA stimulus funding to support both operating and capital expenditures in the upcoming biennial budget, including restoration of some capital projects that were defunded in FY 2021-22 in order to replenish fund balance (the project descriptions in Section 3.d-ii identify those previously defunded projects). For the expenditure plan that the Port submitted to the State of California, please see Attachment II.⁸

3c. Operating Expenses

The proposed operating budget would increase the Port's operating expenses in FY 2022-23 by \$11.2 million and by \$2.2 million in FY 2023-24 as shown in Figure 3-4 below. For details on Operating Costs by division, see Attachment VI.

Figure 3-4: Proposed Operating Budget Changes (\$millions)

	Budget 2021-22	Budget 2022-23	Change from FY2021-22 Budget		Budget 2023-24	Change from FY2022-23 Budget	
			Amount	Percent		Amount	Percent
Salaries & Benefits	\$41.2	\$46.9	\$5.7	13.9%	\$48.2	\$1.3	2.8%
City-wide Overhead	0.9	0.9	0.0	0.0%	0.9	0.0	0.0%
Other Current Expenses	14.0	15.3	1.3	9.2%	15.3	0.1	0.6%
Materials & Supplies	0.9	0.9	0.0	5.6%	0.9	0.0	-0.1%
Equipment	0.0	1.0	1.0	0.0%	1.0	0.0	0.0%
Debt Service	6.3	6.3	0.0	0.0%	5.6	-0.7	-11.7%
Interdept. Work Orders	28.3	30.5	2.2	7.9%	31.3	0.7	2.4%
OPERATING SUBTOTAL	91.6	102.0	10.3	11.3%	103.3	1.4	1.4%
Programmatic Projects	3.0	3.0	0.0	-0.1%	3.1	0.1	4.6%
Development Projects	8.0	8.8	0.8	9.7%	9.4	0.6	6.9%
SBH Operating	3.8	3.9	0.1	3.7%	4.0	0.1	2.6%
OPERATING TOTAL	\$106.4	\$117.6	\$11.2	10.6%	\$119.9	\$2.2	1.9%

These changes are the cumulative result of:

- \$5.7 million in increased personnel costs
 - \$1.3 million from an anticipated labor cost of living increase. The City will start collective bargaining with the majority of its labor unions in January 2022. The Mayor's Office has assumed that wages will increase at the rate of inflation – 3.25% for FY 2022-23 and 2.83% for FY 2023-24.
 - \$3.6 million to allow the backfill of approximately 20 positions that became and remain vacant since the onset of the pandemic. Staff will determine which positions to backfill based on divisional needs.
 - \$0.9 million from position changes (see Attachment III) including five new positions:

⁸ Due to updated cost estimates, new repair needs identified during the significant rains of late 2021, and changes to the project rankings which occurred after the Port's submission to the SLC, the amounts shown in Figure 3-3 do not align to Attachment II.

- One new 6331 Building Inspector in Engineering to support an anticipated increase in projects funded through stimulus funding and early Waterfront Resilience projects and to address the substantial backlog of encroachment permits.
 - One new 1844 Management Assistant in Engineering to provide administrative support, including administration of as-needed engineering contracts, management of the division's procurement needs, scheduling meetings and processing invoices. The position will also provide support for the Permit Desk adding redundancy for this key business function.
 - Two apprentice positions in Maintenance, including a Gardener Apprentice and a Labor Apprentice, to create training pathways to union positions.
 - One new 9395 Property Manager in Real Estate to manage and activate public spaces including parks and mobile sidewalk vending.
 - Various substitutions of job classification for existing positions, including:
 - Downward substitution of a project management position in Homeland Security to an Emergency Services Coordinator position to support the Port's disaster management and security efforts including support for the mobile vending permit program.
 - The upward substitution of three 1652 Accountant I to 1654 Accountant II positions to reflect the implementation of PeopleSoft which has increased the complexity of the Port's accounting ledgers, and additional work related to implementation of GASB 87 for Port leases and Port development projects.
 - One upward substitution of an 1824 Principal Administrative Analyst to an 1825 Principal Administrative Analyst II, as part of a reorganization of the finance team which included the reduction of finance positions from eight to five positions which increased administrative efficiency and accomplished net savings.
- \$2.3 million in increased non-personnel costs
 - \$1.3 million in Other Current Expenses (see Attachment VII for details), with major changes including:
 - \$0.6 million from consolidating engineering consulting costs into the operating budget (this cost is offset by a matching reduction in project budgets)
 - \$0.4 million in increased security costs due to the renewal of the security contract to patrol Port property
 - \$0.3 million in increases for additional janitorial and security costs partially offset by savings from successful renegotiation of the Port's Pier 1 office lease.
 - \$1.0 million from restoring equipment and materials and supplies budget to pre-pandemic levels

Services of other City departments, or workorders, remain a significant expense. Figure 3-5 below provides details on large workorders, with most changes representing minor increases with the exception of the Public Utilities Commission work order to provide shoreside power to cruise ships which was eliminated from the current year budget due to COVID. See Attachment VIII for a complete list of workorders proposed in the biennial budget.

Figure 3-5: Workorder Detail (\$millions)

	FY2021-22 Budget	Proposed FY2022-23	Change from FY2021-22		Proposed FY2023-24	Change from FY2022-23	
			Amount	Percent		Amount	Percent
Risk Management Svcs (AAO)	\$8.8	\$9.1	\$0.3	2.8%	\$9.1	\$0.0	0.0%

TOTAL	\$28.3	\$30.5	\$2.2	7.8%	\$31.3	\$0.8	2.6%

3d. Capital Investment

For more than a decade, the Port of San Francisco has used its ten-year Capital Plan to guide its capital investments. The Capital Plan helps to educate the public about the magnitude of the Port's capital needs, as well as the limited resources available to address them. The FY 2021-22 to FY 2030-31 Capital Plan identifies a \$1.99 billion state of good repair (SOGR) investment need, \$1.49 billion of which is currently unfunded.

To facilitate strategic analysis and bridge the gap between the distant ten-year time span of the Capital Plan and the immediacy of the two-year capital budget, the Port develops a five-year Capital Improvement Program (CIP). Unlike the ten-year Capital Plan, which identifies the Port's total capital needs regardless of available funding, the five-year CIP programs specific projects according to the amount of capital funding staff estimates will be available over the next five years. The CIP also allows staff to consider the time span necessary to conceive, design, and deliver capital projects. The CIP lays out the Port's vision for addressing as many of the needs identified in the Capital Plan as possible, given limited resources. The first two years of the five-year CIP are proposed for appropriation through the biennial FY 2022-23 and FY 2023-24 budget.

3d-i. Five-Year Capital Improvement Program

The Port's Finance staff began development of the CIP by soliciting capital requests from all Port divisions. Project forms included information about the project scope, schedule, budget, return on investment, safety improvements, and the relationship to the Port's mission. In addition, for the first time, this CIP process specifically required each project sponsor to identify a project's impact on race equity. Impacts varied from projects with direct impacts such as supporting job opportunities for majority BIPOC workforces or improvements which serve or are adjacent to historically underserved neighborhoods; to those projects which address important deferred maintenance at Port facilities but may have limited direct equity impacts.

A committee consisting of the deputy director from each Port division, plus analytical support from Finance and the Project Management Office, ranked the projects against one another using the following principles:

- **Honor Prior Commitments**—the project was funded in a previous Capital Budget and additional funds are needed to complete the project due to expanded scope, a new cost estimate, or bids that came in over the approved budget.
- **Address Priority Health and Safety Needs**—the project is legally mandated or failure to complete the scope puts the Port in imminent jeopardy of being legally mandated to do the work.
- **Meet Imminent Leasing Needs**—the project is required to prepare a Port facility for a tenant, per an existing or pending lease agreement.
- **Strategic Investment**—the investment will generate sufficient revenue in the future to justify postponing other capital improvements.
- **Leverage Port Funds without Outside Sources**—the project will be partially or fully funded by non-Port funding sources.
- **Executability – For projects to receive ARPA funding, staff additionally considered the ability to expend the funds by the ARPA deadline of June 30, 2024.**

The chart below provides an overview of the Port's full five-year Capital Improvement Program. The \$208.1 million of work proposed in this CIP is funded through a mix of Port revenue (\$88.3 million), South Beach Harbor revenue (\$6.1 million), federal ARPA stimulus (\$62.3 million), and other external sources (\$51.7 million). As detailed in the table below, the CIP includes funding for both new projects and for some previously appropriated projects requiring additional funds to complete.

Figure 3-6: Sources of Funds for the CIP (\$millions)⁹

	FY 2022-23	FY 2023-24	FY 2024-25	FY 2025-26	FY 2026-27	TOTAL
Port Harbor Fund	\$13.3	\$15.0	\$20.0	\$20.0	\$20.0	\$88.3
South Beach Harbor Fund	1.1	1.2	1.2	1.3	1.3	6.1
ARPA Stimulus	54.8	7.5	0.0	0.0	0.0	62.3
Grant Fund	1.0	0.0	0.0	0.0	0.0	1.0
General Obligation Bonds	13.9	9.1	7.8	8.0	7.9	46.7
City General Fund	4.0	0.0	0.0	0.0	0.0	4.0
TOTAL	\$88.1	\$32.7	\$29.0	\$29.3	\$29.2	\$208.4

The draft CIP with project descriptions, budgets, and schedules is included as Attachment IV to this report. A list of the projects funded is shown in the figure below, with the FY 2022-23 and FY 2023-24 columns representing the biennial Capital Budget¹⁰.

Over half the \$208.4 million shown in Figure 3-6 is from outside sources, illustrating the importance of securing state and federal infrastructure dollars for future capital investment.
To that end, Port staff has been meeting regularly to identify capital projects that align with federal grant opportunities available through the 2021 infrastructure bill. Using this list, staff is working with the Port's federal lobbyists to design competitive grant proposals for submission to the Department of Transportation (DOT) upon release of the first federal Notice of Funding Opportunities (NOFO) under the new legislation. Staff expects DOT to issue the NOFO in the coming weeks. Staff will present the Port's federal and state legislative priorities, including strategies related to the infrastructure plan, to the Port Commission in March.

⁹ The CIP includes all sources of funds, regardless of how they will or have been appropriated. Figures 3-6, 3-7, and 3-8 in this section reflect the full CIP amounts. The proposed FY 2022-23 and FY 2023-24 budget only appropriates all sources in Figure 3-6 above except General Obligation Bond and General Fund support (which only apply to the Waterfront Resilience Program). See Appendix 1 of the Attachment IV for a list of projects and appropriations included in the FY 2022-23 and FY 2023-24 budget.

¹⁰ Funding amounts for the Waterfront Resilience Program shown in Figure 3-7 include General Obligation Bond and General Fund support which are not included in the proposed capital budget appropriation.

Figure 3-7: Uses of Funds for the CIP (\$millions)

Project	FY 2022-23	FY 2023-24	FY 2024-25 - FY 2026-27	TOTAL
<i>Southern Waterfront</i>				
Heron's Head Park Shoreline	\$1.5	\$0.0	\$0.0	\$1.5

Total	\$88.1	\$32.7	\$87.5	\$208.4

3d-ii. Biennial Capital Budget for FY 2022-23 and FY 2023-24

Capital investments in the Port's mission critical and revenue generating assets remain essential despite current revenue constraints (see Attachment V for a list of projects completed, or scheduled for completion, in the current fiscal year). Staff propose the list of projects described below, and listed above in Figure 3-7, for appropriation in this

biennial budget.

Given the high level of ARPA funded capital investment proposed in FY 2022-23 and FY 2023-24 and the June 30, 2024 deadline to expend ARPA funds, the Port has increased project delivery resources and administrative capacity in the proposed budget with:

- Full staffing of the Project Management Office, which has a number of current vacancies
- Reassignment of a vacant analyst position to Contract Administration
- Fully funding the Engineering as-needed contracts for architecture and design
- 2 new positions in the Engineering division for building inspection and permit desk administration
- A new project-funded Human Resources analyst to assist with filling vacancies

Southern Waterfront Projects

Heron's Head Shoreline Restoration (\$1.5 million)

The existing shoreline on the south side of the park is experiencing severe erosion and consequently discharges sediment into San Francisco Bay. This project will stabilize the shoreline, improve habitat and biodiversity, and include sea level rise adaptation as possible.

Pier 80 Piling and Fendering (\$9.4 million)

This project will replace the current fender system – oversized tires hung from aging and deteriorating marine pilings – with new pilings and procure/install three-foot-tall buckling-type rubber cone fenders along the 1,200-foot east-facing berth. This will reduce the operational constraints of the current Roll-on/Roll-off (Ro/Ro) vessels at Pier 80 (terminal) and provide flexibility for additional vessel classes at the terminal.

Pier 80 Subsidence Rehabilitation (\$0.8 million)

This project funds a study to determine the preferred approach to dealing with the uneven surface at the Pier 80 cargo terminal. The results of the study will guide future capital requests. When complete, this project will enable the port's terminal operator the opportunity to increase international trade while creating efficiencies in the exporting of domestically produced automobiles from the Port of San Francisco.

Pier 90 Silo Demolition Design (\$1.2 million)

The Pier 90 silos, formerly used to store grain, have been unused since 1989. The proposed project scope includes design of the demolition of all existing landside structures, to remove the vacant silo, and eliminate a life-safety hazard and ongoing maintenance and security expense. After design, additional funding will be requested for the actual demolition work. This restores a project that was previously defunded due to COVID-19.

Pile Removal (\$2.0 million)

This project will remove deteriorated creosote treated piles and wharf areas that are

no longer functional in the Southern Waterfront. Port staff has completed pile removal at Islais Creek (2019) and North Apron of Pier 19 (2017) and will prioritize pile removal based on water and safety hazards. This restores a project that was previously defunded due to COVID-19.

Resilient Multi-Modal Cargo Way Pre-Design (\$6.2 million)

The Resilient Multi-Modal Cargo Way Design project will improve Cargo Way consistent with the City's Better Streets guidelines. Cargo Way is a key truck route to the Port's cargo facilities and has been identified by the City as a potential inland line of defense for flood protection. Through additional City department and community engagement, the goal of this funding request is to develop a plan and 35% design for a Resilient Multi-Modal Cargo Way with CEQA and NEPA clearance, and to position this project for future state and federal infrastructure funding which may offset some of the total estimated project cost of \$30-50 million. Port staff believes that this project would be a strong competitor for newly enhanced transportation planning grant funds and hopes that the Port's expenditure on pre-design activities would serve as a match to a federal grant.

Southern Waterfront Beautification Fund (\$4.4 million)

Appropriation in accordance with the Port Commission's Southern Waterfront Beautification Fund policy. Available funds will be used for projects in the Southern Waterfront with a specific focus on open space, wetland restoration, pier removal, public art, and historic preservation. See Attachment IX for details on appropriation amounts.

China & Central Basins Projects

Pier 50 Seismic Assessment and Retrofit Pre-Design (\$3.8 million)

This project funds initial planning and other pre-design work for seismic improvements to the drive aisle and Sheds A through D at Pier 50. This work is the initial step in a multi-year process to design, estimate, fund, and construct work at Pier 50. When complete, seismic improvements to Pier 50 will ensure that Port staff can fulfill their disaster response and recovery role following a major earthquake.

Pier 64 Sediment Site Cleanup (\$1.4 million)

After identifying sediment contamination at Pier 64, the Port and Responsible Parties performed a sediment investigation and submitted a report of findings to the Regional Water Quality Control Board (Water Board) in February 2021. Discussions with the Water Board to date indicate it will require additional evaluation of sediment contamination and submittal of an addendum to the sediment investigation report to support the final remediation plan. Once the plan is approved, the Port will enter into negotiations with the Responsible Parties to share the cost of remediation.

Ferry Plaza/South Beach Harbor Projects

South Beach Harbor (\$2.3 million)

South Beach Harbor is a full-service marina consisting of 700 slips, a recreational and commercial guest dock, the Pier 40 Maritime Center and South Beach Park. This project will improve various assets within the South Beach Harbor area. Current

projects include baffle wall, pre-dredge sediment, and improvements to Pier 40. The Pier 40 improvements, which are required by the Bay Conservation and Development Commission (BCDC), include work on the north guest dock, kayak float, east apron public access improvements, jib joist replacement, relocation of existing hoist, and BCDC application fees.

Northeastern Waterfront Projects

Pier 29.5 Office Rehabilitation (\$0.2 million)

The Pier 29.5 office building is a two-story building that is currently vacant. The rehabilitation of this office space is required prior to leasing. This project will repair the sheetrock damage in the lobby and both floors, remove hazardous material, as well as improve the entrance and staircase in the lobby accessed from the Embarcadero. Once fully leased this office building could potentially increase revenue by approximately \$160,000 annually.

Pier 29.5 Parking Exhaust System (\$1.5 million)

The San Francisco Fire Department has mandated installation of a new ventilation system to continue using Pier 29.5 for parking. To preserve the historic fabric of the facility, a new ventilation system will be installed utilizing existing roll-up door openings and windows to mount exhaust fans that will increase air circulation within Piers 29.5 and 31 bulkheads. The project will also include installation of Carbon Monoxide sensors to operate the fans.

Pier 9 (Tier 1 FIRPA) (\$2.8 million)

The 2019 Facility Inspection Repair Project Assessment (FIRPA) study identified several urgent life safety and deferred maintenance repair needs at Pier 9. This project will address those needs with repairs to the substructure piles and beams, and concrete spalling along the parapets.

Roundhouse 2 Building Envelope (\$8.0 million)

Roundhouse 2 is a four-story partially occupied office building. The project is intended to enhance and revitalize the Roundhouse building, address its current state of disrepair, and increase the leasing potential of the space. This project includes work to correct deficiencies in the fire-rated construction of HVAC shafts, replace the roof, repair windows for water intrusion, and replace the building's solarium.

Fisherman's Wharf Projects

Aquatic Park (\$1.2 million)

To address bacteria issues at beaches throughout the Bay Area, the Water Board recently amended the San Francisco Basin Water Quality Control Plan (Basin Plan). The Water Board determined that Aquatic Park has been impaired with fecal indicator bacteria and has required the Port to inspect and repair the sewer lines within one quarter mile from the Aquatic Park shoreline and within Port jurisdiction by 2025.

Fisherman's Wharf Resilience and Public Realm Planning (\$1.6 million)

In the last two years, Fisherman's Wharf has experienced a series of economic and infrastructure challenges. The COVID 19 pandemic has had a significant impact on the tourism-dependent businesses in the area. Pier 45, a hub for the commercial fishing industry and site of many Fisherman's Wharf visitor serving attractions, suffered a fire in 2020 that destroyed Shed C. The recent Waterfront Resilience Program Multi-Hazard Risk Assessment revealed seismic risks throughout much of Fisherman's Wharf, including older wood structures. Together, these events suggest that the Port must reinvest in and reinvigorate the Wharf. This work will begin to outline a plan and determine community interest in an effort to attract new investment to the area to improve the public realm, enhance the resilience of Fisherman's Wharf and support businesses and workers.

Pier 45 Shed B & D Repairs (\$1.7 million)

The 2019 FIRPA study recommended significant work to address deferred maintenance at Sheds B and D at Pier 45. Work to be completed with this project includes repairs and upgrades to the roof, parapet coping, concrete façade, windows, metal doors, and egress doors.

Port-wide Projects

Contingency Fund (\$6.2 million)

With supply-chain issues and labor shortages, construction costs have risen significantly and have created uncertainty in project budgets. The Port uses the Contingency Fund to supplement budgets on essential projects when bids come in high, but are deemed reasonable, or when unforeseen site conditions or other challenges arise that exceed a project's budgeted contingency. The Contingency Fund also serves as a source to address urgent projects and needs that arise after the biennial budget is adopted.

Crane Barge Purchase (\$6.5 million)

This project will design and build a new 150' crane barge (pile driving barge) affixed with a 200-ton crane to support pier repair projects for the next 50 years. The new crane barge is a generational purchase that will be large enough to handle steel pipe and concrete piles which outperform wood pile and are much safer for the aquatic environment. The new barge will allow the Port to make seismic and structural repairs to our facilities due to the increased reach and lifting capacity. The engine on the crane will also meet all modern bay area air quality standards to reduce pollution in the environment.

Enterprise Technology Project (\$1.5 million)

This project provides additional funding for the procurement and implementation of a new asset management system. The Port's existing enterprise asset management system, which functions as the work order system for the Maintenance division, has become obsolete and is no longer supported by the vendor. Implementation of a new system will enhance asset management functionality for the entire organization and will greatly improve the Maintenance division's work order system. This project

will also allow the Port to finally retire its Oracle-based financial software, freeing IT resources to support other technology needs including data governance, tracking and reporting, document management, integration of systems such as GIS and PropWorks to maximize their functionality, and implementation of collaborative work tools including SharePoint. This restores a project that was previously defunded due to COVID-19.

Facility Inspection and Repair Project Assessments (\$2.0 million)

The Facility Inspection and Repair Project Assessment (FIRPA) is a long-term and on-going program to determine the current state of each Port facility and the resources required to bring the facility into a state of good repair. Staff will use FIRPA to review a number (i.e., five to ten) of Port facilities every year until all major facilities have been evaluated with the goal of assessing every Port facility approximately every ten years. This effort provides critical data to support the Port's capital planning efforts as well as other facility prioritization analysis.

Grant Match (\$3.0 million)

The Port regularly applies to the federal and state governments for grants which require a local match. This project will meet two needs – it will support grant match requirements and will also support pre-application work, such as cost benefit studies, often required to obtain grants.

Insurance Deductible (\$1.3 million)

Property insurance markets are in crisis due to the compounding impacts of climate change and business interruption claims resulting from COVID-19. As a result of these market wide impacts, as well as the Pier 45 fire in May 2020, the Port's insurance deductible has increased from \$750,000 to \$10.0 million. The Port intends to accumulate funds over time, to ensure sufficient funding to cover the deductible in case of future losses.

Ladders and Skylights (\$1.0 million)

The aging ladders and skylights on shed roofs present a safety risk for Port maintenance staff when working on the roofs. This project would improve or replace the most degraded ladders and skylights throughout the waterfront, reducing the safety risk to Port employees. This restores a project that was previously defunded due to COVID-19.

Maintenance Dredging and Sediment Sampling (\$4.8 million)

Routine dredging of Port berths is required to maintain depths for vessels in support of maritime commerce, including cruise and cargo operations. This project includes pre-dredge testing of sediment required by regulatory agencies to determine the appropriate disposal or re-use option for the sediments. It also includes sending dredged sediments to beneficial re-use such as wetlands restoration (i.e., Montezuma Wetlands Restoration in Solano County) when feasible.

Pile Crew (\$2.4 million)

These funds will be used to hire and maintain a Port-staffed pile worker crew to perform capital repairs on Port piers. The crew will consist of seven pile workers,

one supervisor, and one crane operator. The Port's analysis indicates that completing pier repairs with Port crews is more cost-effective than having the work done by a contractor. However, finding and hiring skilled professionals for the work can be a challenge. If the Port is unable to fill all needed positions, budgeted funds will be used to put as many planned pier repair projects out to bid as budgets allow. This restores a project that was previously defunded due to COVID-19.

Project Management Office (\$3.6 million)

This funding supports the Port's Project Management Office (PMO) staff. The PMO manages all Port capital projects and is responsible for driving those projects from inception to construction close out. The PMO staff will play an integral role in the expenditure of ARPA funded capital projects by June 2024.

Stormwater Trash Capture Installation (\$0.5 million)

This project will perform the field verification and mapping needed to ultimately install full trash-capture devices in the Port's municipal separate storm sewer system area. There are approximately 543 stormwater inlets in the area, and the Port's Municipal General Stormwater Permit requires the devices to be installed prior to 2030. This project will fund the initial phases of the work, with the full project costs including procurement and installation estimated at \$2.8 million.

Tenant Improvement Fund for Tenant Attraction/Retention (\$8.1 million)

This project is an economic recovery initiative and will allow the Port to fund tenant improvements on par with private-sector landlords. Historically, the Port has relied on tenants to finance these needed improvements, then reduced their rent to offset the improvement costs. This has the impact of discouraging small and local businesses that might not have the cash or credit to finance such improvements and also reduces rent that the Port receives from these lease agreements. This will make the spaces more attractive to a variety of tenants, speed-up leasing, decrease vacancy, and increase revenue.

Waterfront Resilience Program (\$3.1 million Harbor Funds)¹¹

As shown in Figure 3-8 below, the Port projects \$58.8 million in expenditures over the five-year CIP period, including \$1.5 million and \$1.6 million in Harbor Fund proposed for appropriation in FY 2022-23 and FY 2023-24, respectively.

Figure 3-8: Sources (\$millions)

Source	22/23	23/24	24/25	25/26	26/27	Total
Port Harbor Fund	1.5	1.6	1.6	1.7	1.7	8.1
City General Fund	4.0	0.0	0.0	0.0	0.0	4.0
General Obligation Bond	13.9	9.1	7.8	8.0	7.9	46.7
Total	19.4	10.6	9.4	9.7	9.6	58.8

The \$3.1 million in Port capital funds in the biennial budget period will support costs

¹¹ Note the CIP total Waterfront Resilience Cost includes a request for support from the General Fund as well as the previously approved General Obligation bonds. Those sources are not included here as they will not be appropriated through the proposed budget.

ineligible for General Obligation Bond funding. This request will fund \$2.1 million in projected ineligible Port labor costs (such as trainings, vacation, and sick time), including a newly approved position for grant and funding advocacy. The remaining \$1.0 million will fund ineligible consultant expenditures and interdepartmental workorders. Staff plan to return to the Port Commission to request approval and appropriation of a second GO Bond sale later this fiscal year.

See Attachment X for a report of project appropriations, balances, and status.

4. REQUIRED RESERVES

The Port Commission has adopted two policies relevant to the proposed budget:

1. Capital investment must equal or exceed 25% of operating revenues, and
2. Operating reserves must equal or exceed 15% of operating expenses.

As a result of the economic crisis caused by the COVID-19 pandemic, the FY 2021-22 budget did not meet the capital investment policy requiring 25% of operating revenue to be set aside for capital. The proposed FY 2022-23 and FY 2023-24 budget meets the 25% investment requirement thanks to the availability of ARPA funding, with 37% investment averaged across both years of the biennial budget¹².

Port Commission policy also requires that the Port maintain an operating reserve of at least 15% of annual expenses. Fund balance, which serves as the Port's operating reserve is estimated to have \$90 million at the beginning of the biennial budget period, or approximately 90% of annual operating expenses of \$101 million in FY 2022-23.

5. CONCLUSION

The financial uncertainty created by the COVID-19 pandemic is substantial and makes the Port's revenue forecasts subject to significant variance. Port staff will continue to closely monitor economic indicators and revenues throughout the coming fiscal years and will adjust expenditures as needed. Additionally, over the next two years, Port staff will use the reprieve granted by the federal stimulus funding to develop and implement a suite of economic recovery measures to ensure the Port's future financial stability.

¹² Due to the ARPA expense deadline of June 2024, all ARPA funded capital projects are included in FY 2022-23 in order to maximize the time available to use funding. Therefore, the capital investment percentage more reasonably considered as an average across both years of the biennial budget.

Division	New/Substitute/ Eliminate	Justification	Job Class	Title	FY 2022-23			FY 2023-24	
					Total Est. Cost	FTE Count	Total Est. Cost	FTE Count	
Maritime	Substitute	The Maritime division is experiencing significant growth in cruise operations, in addition to the more focused oversight and management of the Port's Pier 68 Shipyard facilities.	9376	Maritime Operation Specialist	\$ (167,986)	(1.00)	\$ (173,026)	(1.00)	
Maritime	Substitute	Since assuming responsibility in May of 2019, Maritime staff has allocated one(1) wharfinger to primarily focussing on the day-to-day oversight and management of the facility. Cruise volumes are expected to increase by 41% in 2022. As a result of this increase in cruise business, additional maritime staff and resources will need to be deployed to ensure the high level of efficiency and business relations the Port is maintained for years to come. Furthermore, the substitution expands the division's ability to assign a broader range of essential duties to the position; Allows the division to hire a broader skilled candidate who is able to join the Port and immediately contribute to the maritime business needs described above; and ensure continuity of day-to-day maritime business needs, and ancillary organization projects by accounting for staff needs.	9357	Wharfinger	\$ 183,565	1.00	\$ 189,072	1.00	
F&A	Substitute	Part of Finance reorganization for net savings	1824	Pr. Admin Analyst	\$ (207,043)	(1.00)	\$ (213,254)	(1.00)	
F&A	Substitute		1825	Pr. Admin Analyst II	\$ 244,280	1.00	\$ 251,609	1.00	
Executive	Substitute	The Port of San Francisco is requesting to upgrade the existing 1312 (Public Information Officer) position to a 9252 (Communications Specialist) to meet current and projected Port business needs. Over time the Port's external affairs and communications needs have grown beyond the scope of a 1312; a communications specialist will be able to ensure that all current and projected external affairs and communications needs are adequately met.	9252	Communication Specialist	\$ 191,246	1.00	\$ 196,983	1.00	
Executive	Substitute		1312	Public Information Officer	\$ (141,596)	(1.00)	\$ (145,844)	(1.00)	
F&A	Substitute	The Port intends to consolidate its capital and professional service contracting functions in the upcoming budget. This effort will accomplish a number of goals including enhanced internal control of the contracting process, the creation of efficiencies through combined contracting functions and cross training of staff and the ability to bring the equity and LBE expertise of the Port's Contracts and Procurement staff to bear in construction contracting. To support this change, Port staff proposes to upgrade the current classification of the Contracts and Procurement Manager position from an 0922 Manager I to and 0923 Manager II to reflect the increased scope and responsibility of managing additional contracting	0922	Manager I	\$ (206,534)	(1.00)	\$ (212,730)	(1.00)

**Recommendations of the Budget and Legislative Analyst
For Amendment of Budget Items in the FY 2022-23 and FY 2023-24 Two-Year Budget**

PRT - Port

Rec #	Account Title	FY 2022-23						FY 2023-24					
		FTE	From	To	Amount	From	To	FTE	From	To	Amount	From	To
	PRT Finance and Administration												
	9993 Attrition Savings	(\$645,550)		(\$891,538)	\$245,988	X							
	Mandatory Fringe Benefits	(\$272,961)		(\$376,973)	\$104,012	X							
	Total Savings	\$350,000											
PRT-1													
	Increase Attrition Savings to reflect a more realistic Attrition rate, given the six vacant positions within the Finance and Administration Division. This adjustment would increase the overall Attrition Savings within the Division from (\$199,003), or approximately 1.8 percent of budgeted salaries and benefits, to (\$549,003), or approximately 5.8 percent of budgeted salaries and benefits.												
	0931 Manager III	1.00	0.00	\$181,304	\$0	\$181,304		1.00	0.00	\$187,126		\$187,126

ENGINEERING

The Engineering Division provides project and construction management, engineering design, facility inspection, contracting, code compliance review and permitting services for all of the Port's facilities including piers, structures, buildings, cranes, utilities, public and private areas, development projects, streets and walkways. The Engineering Division assists and coordinates with other city departments to assure an appropriate transition between the City and the property in the Port's jurisdiction.

The Engineering Division's fiscal year 2022-23 budget of \$7,047,185 consists of \$3,918,595 in salaries, \$1,295,809 in Mandatory Benefits; \$989,325 in Non-Personnel Services; \$7,000 in Materials & Supplies; and \$836,456 in Work Orders to Other Departments. In fiscal Year 2023-24 budget of \$7,109,406 consists of \$4,192,316 in salaries, \$1,237,311 in Mandatory Benefits; \$828,319 in Non-Personnel Services; \$7,000 in Materials & Supplies; and \$844,460 in Work Orders to Other Departments.

Summary of Changes: Increases to Salaries and Mandatory Fringe Benefits reflect the wage increases guaranteed by collectively bargained Memoranda of Understanding and the cost of fringe benefits including retirement and health care, as well as a new Building Inspector (\$6331) and 1844 (Sr Management Assistant) requested. Travel, printing, software licensing fees, subscriptions, other current expenses, and materials budgets have been adjusted to better reflect actuals and current staff needs. Moved \$500,000 Engineering Consulting Services and \$120,000 Shoreside Power Maintenance Fees from the Programmatic Project budget to the operating budget in fiscal year 2022-23 and fiscal year 2023-24. Finally, Work Order budget for fiscal years 2022-23 and 2023-24 are flat compared to fiscal year 2021-22.

EXECUTIVE

The policies set by the Port Commission are implemented by the Port's Executive Director and staff. The Executive Director serves as chief executive of the Port, is appointed by the Mayor, serves at the pleasure of the Port Commission, and is charged with the management of all the offices and activities placed under the jurisdiction of the Port Commission. The Executive Director oversees the Executive Division functions for External Affairs, Homeland Security, and Legal support provided by the San Francisco City Attorney's Office.

The Executive Division's fiscal year 2022-23 budget of \$8,810,113 consists of \$1,486,097 in Salaries; \$520,777 in Mandatory Fringe Benefits; \$1,996,142 in Non-Personnel Services; \$3,750 in Materials & Supplies, and \$4,803,347 in Work Orders to Other Departments. The fiscal year 2023-24 budget of \$8,879,163 consists of \$1,547,476 in Salaries, \$486,448 in Mandatory Fringe Benefits; \$2,038,142 in Non-Personnel Services; \$3,750 in Materials & Supplies; and \$4,803,347 in Work Orders to Other Departments.

Summary of Changes: The Executive Division's budget includes increases to Salaries and Mandatory Fringe Benefits which reflect the wage increases guaranteed by collectively bargained Memoranda of Understanding and the cost of fringe benefits including retirement and health care, as well as the proposed substitution of an existing 1312 (Public Information Officer) to a 1314 (Public Relations Officer) to meet current and projected Port business needs. Prof & specialized services reflects an additional \$75,000 is budget for a new grant writing contract, which will be funded by stimulus. Memberships and other current expenses have been adjusted to better reflect actuals and current staff needs. The security budget is adjusted by \$320,000 to reflect projected cost increases resulting from a new competitively bid security contract. Finally, Work Order changes reflect additional police coverage for the Giants home games. The additional coverage will be funded by stimulus.

MARITIME

The Maritime Division is responsible for managing and marketing a wide array of maritime industries: cruise and cargo shipping, commercial and sport fishing, ferry and excursion operations and other harbor services. The division promotes Port maritime facilities to potential and existing customers while ensuring compliance with federal security mandates and providing environmental stewardship. Areas of responsibility include cruise and cargo terminals, ferry terminals, the inactive shipyards and dry docks, Fisherman's Wharf and Hyde Street commercial fishing harbors, excursion terminals and harbor service facilities for pilots, tugboats, barges, layberthing and other ship services. The budget numbers do not include South Beach Harbor.

The Maritime Division's fiscal year 2022-23 budget of \$9,895,019 consists of \$1,961,465 in Salaries, \$719,364 in Mandatory Fringe Benefits; \$1,303,073 in Non-Personnel Services; \$9,475 in Materials & Supplies, and \$5,901,642 in Work Orders to Other Departments. The fiscal year 2023-24 budget of \$10,037,338 consists of \$2,027,551 in Salaries, \$674,955 in Mandatory Fringe Benefits; \$1,303,473 in Non-Personnel Services; \$9,475 in Materials & Supplies; and \$6,021,844 in Work Orders to Other Departments.

Summary of Changes: The Maritime Division's budget includes increases to Salaries and Mandatory Fringe Benefits which reflect the wage increases guaranteed by collectively bargained Memoranda of Understanding and the cost of fringe benefits including retirement and health care, as well as proposed substitution of a 9376 (Maritime Operation Specialist) to a 9357 (Wharfinger), offset by an 1824 (Principal Administrative Analyst) moved to Finance & Administration due to re-organization. Travel cost budgets have been consolidated into Operations. Finally, Work Order changes reflect additional security needs due to increased cruise calls and the restored shoreside power budget as the Port is anticipating significant number of cruise calls in both budget years (compared to COVID suppressed cruise calls). Shoreside power usage fees will be reimbursed by the cruise lines and recovery is budgeted in revenue.

FINANCE & ADMINISTRATION DIVISION

The Finance and Administration Division is responsible for human resources, accounting, finance, contracts, information systems, and business services. Human resources include labor and employee relations, payroll, training programs, and employee recruitment and hiring. Finance includes budget development and analysis, capital planning, debt issuances/management, forecasting, financing, risk analysis, and reporting. Accounting includes accounts payable, accounts receivable, general ledger, financial statements and managing outside audits. Contracts include procurement of goods and services, compliance and reporting and LBE support. Information systems include the Port's information technology equipment acquisition and maintenance, local area network, computer application development and maintenance. Business services includes purchasing, materials management, mail service, telephone system, receptionist service, administration of the Port's vehicles, and management of the Port's offices.

The Finance & Administration Division's fiscal year 2022-23 budget of \$32,560,926 consists of \$6,740,594 in Salaries, \$4,759,482 in Mandatory Fringe Benefits; \$1,677,375 in Non-Personnel Services; \$210,008 in Materials & Supplies; \$6,343,603 in Debt Service; and \$12,769,864 in Work Orders to Other Departments. The fiscal year 2023-24 budget of \$33,941,345 consists of \$7,249,271 in Salaries, \$4,809,562 in Mandatory Fringe Benefits; \$1,641,510 in Non-Personnel Services; \$205,008 in Materials & Supplies; \$53,070 in Equipment; \$5,600,000 in Debt Service; and \$14,382,924 in Work Orders to Other Departments.

Summary of Changes: The Finance & Administration Division's budget includes increases to Salaries and Mandatory Fringe Benefits which reflect the wage increases guaranteed by collectively bargained Memoranda of Understanding and the cost of fringe benefits including retirement and health care, as well as several substitutions in Accounting, Finance and Human Resources. Notable non-personnel services include increased funding for portwide employee training needs. Other current expenses, software licensing, prof & specialized services, entertainment & promotion and materials budgets have been adjusted to better reflect actuals and current staff needs. Equipment requests include a replacement vehicle and an electric charging station for Business Services in FY2023-24. Finally, Work Order changes reflect additional audit needs from the Controller; higher anticipated premium for Portwide facility insurance and citywide expense growth.

REAL ESTATE & DEVELOPMENT

The Real Estate & Development Division is responsible for marketing, leasing, and managing the Port's commercial and industrial property along the 7.5 miles that extends from Fisherman's Wharf to Heron's Head Park (Pier 96); as well as the management of development projects on Port property. This responsibility includes significant public-private partnerships, from developer selection through construction.

The Real Estate & Development Division's fiscal year 2022-23 budget of \$18,299,998 consists of \$4,323,345 in Salaries, \$1,611,985 in Mandatory Fringe Benefits, \$7,923,700 in Non-Personnel Services; and \$4,440,968 in Work Orders to Other Departments. The fiscal year 2023-24 budget of \$18,955,446 consists of \$4,498,670 in Salaries, \$1,524,347 in Mandatory Fringe Benefits; \$7,933,800 in Non-Personnel Services; and \$4,998,629 in Work Orders to Other Departments.

Summary of Changes: The Real Estate & Development Division's budget includes increases to Salaries and Mandatory Fringe Benefits which reflect the wage increases guaranteed by collectively bargained Memoranda of Understanding and the cost of fringe benefits including retirement and health care, as well as a new 9395 (Property Manager) to manage Port open space . Several budget increases reflect the rising cost of operations, including janitorial, security, pest control, Recology services, utility charges and staff and, potentially, broker services to fill Port real estate space (funded by stimulus). Memberships, other current expenses, and rents & leases equipment budgets have been adjusted to better reflect actuals and current staff needs. Rent-leases-bldg budgets reflect a significant reduction for the cost of the Port's Pier 1 offices (leased from Prologis) as the result of a lower than forecasted market rent adjustment. Finally, Work Order changes reflect the additional cost of new parking meter reading technology (Phase 1 in FY23 and Phase 2 in FY24).

PLANNING & ENVIRONMENT

The Port's Planning and Environment Division is responsible for developing and maintaining planning and land use policies adopted by the Port Commission. These land use policies are contained in the Waterfront Plan (WP) and its Waterfront Design and Access element. The WP establishes the foundation and framework for new development projects, real estate leasing and asset management, public access, open space and environmental improvements, and preservation of the Port's historic resources. The Planning and Environment Division, provides regulatory and review responsibilities pertaining to Port building permits, leases and use proposals to ensure that proposals for Port properties comply with applicable land use, design review, and environmental impact review requirements administered by a number of different government agencies.

The Planning & Environment Division's fiscal year 2022-23 budget of \$3,043,955 consists of \$1,632,740 in Salaries, \$535,185 in Mandatory Fringe Benefits, \$609,030 in Non-Personnel Services; \$10,000 in Materials & Supplies, and \$257,000 in Work Orders to Other Departments. The fiscal year 2023-24 budget of \$3,138,317 consists of \$1,690,624 in Salaries, \$502,588 in Mandatory Fringe Benefits, \$678,105 in Non-Personnel Services; \$10,000 in Materials & Supplies; and \$257,000 in Work Orders to Other Departments.

Summary of Changes: The Planning & Environment Division's budget changes are minimal. Increases to Salaries and Mandatory Fringe Benefits reflect the wage increases guaranteed by collectively bargained Memoranda of Understanding and the cost of fringe benefits including retirement and health care. Memberships budgets have been adjusted to better reflect actuals and current staff needs. Finally, Work Order changes reflect actuals and current need for services from City Planning and an existing \$82,000 work order to Rec & Park moved from Programmatic Projects to operating expenses.

MAINTENANCE

The Maintenance Division is responsible for maintaining the Port's 7.5 miles of waterfront property. More than 100 skilled crafts persons are responsible for the preservation and improvement of the Port's fishing harbors, ferry landing, public parks, cargo terminals and piers.

The Port Maintenance Division's fiscal year 2022-23 budget of \$22,572,960 consists of \$12,331,681 in Salaries, \$5,048,241 in Mandatory Fringe Benefits; \$755,834 in Non-Personnel Services; \$799,572 in Materials & Supplies; \$962,797 in Equipment; and \$2,644,835 in Work Orders to Other Departments. The fiscal year 2023-24 budget of \$23,110,952 consists of \$12,810,129 in Salaries, \$4,826,630 in Mandatory Fringe Benefits; \$755,834 in Non-Personnel Services; \$969,572 in Materials & Supplies; \$998,873 in Equipment; and \$2,719,914 in Work Orders to Other Departments.

Summary of Changes: The Maintenance Division's budget includes the Maintenance-Administration and Health & Safety sections, along with 18 shops. They are consolidated below for clarity. Increases to Salaries and Mandatory Fringe Benefits reflect requested increase of 2 FTE in Maintenance for an Apprentice Gardner and an Apprentice Laborer , as well as the wage increases guaranteed by collectively bargained Memoranda of Understanding and the cost of fringe benefits including retirement and health care. Notable changes include funding the materials and supplies budgets across the shops based on pre-COVID actuals (prior year amounts were intentionally defunded for savings). Equipment requests include both new and replacement vehicles, boat equipment, and other equipment needs to support ongoing maintenance. Other current expenses and scavenger services reflect actual level and needs. Finally, Work Order changes reflect citywide expense growth.

SOUTH BEACH HARBOR

South Beach Harbor is a full service marina, consisting of 700 slips for recreational and commercial berthing. The Harbor is also home to the Bay Area Association of Disabled Sailors, (BAADS) an all-volunteer, non-profit charitable organization.

South Beach Harbor was acquired by the Port in 2012. While management of the harbor is provided by Maritime, for financial purposes, South Beach Harbor is a stand-alone business unit such that the revenues it generates are used to support its operations and capital investment.

The Port South Beach Harbor Division's fiscal year 2022-23 budget of \$3,867,769 consists of \$1,220,817 in Salaries, \$434,375 in Mandatory Fringe Benefits; \$535,955 in Debt Service; \$1,280,062 in Non-Personnel Services; and \$396,360 in Work Orders to Other Departments. The fiscal year 2023-24 budget of \$4,005,034 consists of \$1,258,727 in Salaries, \$524,161 in Mandatory Fringe Benefits; \$535,955 in Debt Service; \$1,280,062 in Non-Personnel Services; and \$406,159 in Work Orders to Other Departments.

PROGRAMMATIC PROJECTS: BUDGET FY2022-23 & FY2023-24

Authority Authority Title	Project	Project Title	Project Description	FY 2021-22 Budget	Change	FY 2022-23 Budget	Change	FY 2023-24 Budget	
16294	Stormwater Pollution Control	10017666	Stormwater Pollution Control	Project funds allow the Port to comply with environmental regulations. These funds may be used as-needed to address other environmental regulation requirements, remediation or prevention.	\$ 190,000	\$ -	\$ 190,000	\$ 10,000	\$ 200,000
16296	Public Access Improvements	10017670	Public Access Improvements	The Port is required to construct or purchase a variety of public access improvements associated with new and previously existing Bay Conservation and Development Commission (BCDC) permits. Examples of such improvements include pier railings, benches, picnic tables, litter receptacles, signage, interpretive elements, pathways and lighting, wayfinding signs for pedestrians and cyclists, and miscellaneous site furnishing requests to augment minor tenant improvements.	\$ 40,000	\$ -	\$ 40,000	\$ 20,000	\$ 60,000
16297	Miscellaneous Tenant Facility	10017677	Misc Tenant Facility Imprv.	Funds are for facility improvements at various locations to enhance tenant space as it becomes available, making it more readily rentable at market rates.	\$ 500,000	\$ (100,000)	\$ 400,000	\$ -	\$ 400,000
16303	PO Facility Maint Repair P1	10017683	Facility Maint & Repair	This project will provide funding for the as needed repair and replacement of Port facilities.	\$ 100,000	\$ (50,000)	\$ 50,000	\$ -	\$ 50,000
16308	Abandoned Mat-Illegal Dumpin C	10017700	Abandoned Mat/Illegal Dumpi	Funding to identify, characterize, and remediate, remove, and dispose hazardous materials or wastes abandoned on Port property, in leased premises or as a result of illegal dumping or unauthorized use of unleased property.	\$ 200,000	\$ -	\$ 200,000	\$ -	\$ 200,000
16310	Hazardous W/aste Assessment & R	10017702	Hazardous Waste Assessment	Port Engineering Division staff often encounters lead, asbestos and other hazardous materials during construction which were not identified during the project design phase. Funds are required in order to perform necessary investigations and inspections, obtain permits and approvals, prepare plans, specifications and cost estimates, and write reports in support of hazardous materials management requirements at Port construction sites.	\$ 5,000	\$ (5,000)	\$ -	\$ -	\$ -

Authority Authority Title	Project	Project Title	Project Description	FY 2021-22 Budget	Change \$ (400,000)	FY 2022-23 Budget	Change \$ -	FY 2023-24 Budget
16311 A-E Cnsltng Pjct Plnning; Dsg	10017703	A/E Cnsltng Pjct Plnning; D	The budget for this project is consolidated into Professional Services line in the Engineering Division.	\$ 400,000	\$ (400,000)	\$ -	\$ -	\$ -
16316 Utility Annual Maintenance	10017743	Utility Annual Maintenance	This fund is for small utility service improvements, which do not qualify for capital improvement funds. This fund will also be used to pay utility companies and/or agencies for their services related to utility service operations and improvements.	\$ 80,000	\$ -	\$ 80,000	\$ -	\$ 80,000
16317 Oil Spill Response Training &	10017744	Oil Spill Response Training	To continue preparing for potential future incidents the Port seeks to purchase an additional rigid boom, anchors, and navigational lights.	\$ 90,000	\$ -	\$ 90,000	\$ -	\$ 90,000
16325 Sanitary Sewer Management Plan	10002491	Port-Wide Sewer System Improve	Funds are for as-needed consultant support for condition assessment of the Port's sanitary sewer infrastructure.	\$ -	\$ 150,000	\$ 150,000	\$ 100,000	\$ 250,000
16338 PO Cargo Fac Repair	10017767	Cargo Fac Repair	Contingency funds are for unanticipated repairs and improvements at maritime facilities that become necessary to retain revenues or maintain safe working conditions.	\$ 109,000	\$ -	\$ 109,000	\$ -	\$ 109,000
16339 Heron'S Head Park (Pier 98)	10017770	Heron's Head Park (Pier 98)	The project supports maintenance, ongoing habitat monitoring and maintenance as well as educational and public programs to develop knowledge and understanding of Heron's Head Park and other environmental and sustainability topics. The budget for the "Greenagers" program is in Port Planning & Environment through work order with Rec & Park.	\$ 159,000	\$ (82,000)	\$ 77,000	\$ 5,000	\$ 82,000
17726 GE Youth Employment & Environm	10025785	Youth Employment & Environment	As-needed intern programs to support Maintenance or other divisions that will be training youth on-the-job.	\$ 565,000	\$ (200,000)	\$ 365,000	\$ -	\$ 365,000

Project Title	FY 2022-23	FY 2023-24	Project Description
Aquatic Park	\$ 1,226,000	\$ -	The San Francisco Regional Water Quality Control Board (Water Board) has determined that Aquatic Park has been impaired with fecal indicator bacteria. To address bacteria issues at beaches throughout the Bay Area, the Water Board amended the San Francisco Basin Water Quality Control Plan (Basin Plan). This amendment requires that the Port of San Francisco inspect and repair the sewer lines within ½ miles from the Aquatic Park shoreline and within Port jurisdiction. In accordance with the Basin Plan amendment, repairs should be completed by 2025.
Contingency Fund	\$ 2,602,224	\$ 3,556,003	With supply-chain issues and labor shortages, construction costs have risen significantly and have created uncertainty in project budgets. The Port uses the Contingency Fund to supplement budgets on essential projects when bids come in high, but are deemed reasonable, or when unforeseen site conditions or other challenges arise that exceed a project's budgeted contingency. The Contingency Fund also serves as a source to address urgent projects and needs that arise after the biennial budget is adopted.
Crane Barge Purchase	\$ 6,500,000	\$ -	This project will design and build a new 150' Crane Barge (pile driving barge) affixed with a 200-ton crane to support pier repair projects for the next 50 years. The new Crane Barge is a generational purchase that will be large enough to handle steel pipe and concrete piles which outperform wood pile and are much safer for the aquatic environment. The new Crane Barge will allow the Port to make seismic and structural repairs to our facilities due to the increased reach and lifting capacity. The engine on the crane will also meet all modern bay area air quality standards to reduce pollution in the environment. Design and construction specifications will be provided by an as needed marine engineering firm and will be solicited under competitive bid.
Enterprise Technology Project	\$ 1,500,000	\$ -	This project funds procurement and implementation of a new asset management system. The Port's existing enterprise asset management system, which functions as the work order system for the Maintenance division, has become obsolete and is no longer supported by the vendor. Implementation of a new system will enhance asset management functionality for the entire organization and will greatly improve the Maintenance division's work order system. This project will also allow the Port to finally retire its Oracle-based financial software, freeing IT resources to support other technology needs including data governance, tracking and reporting, document management, integration of systems such as GIS and PropWorks to maximize their functionality, and implementation of collaborative work tools including SharePoint.
Facility Inspection and Repair Project Assessments	\$ 1,000,000	\$ 1,000,000	The Facility Inspection and Repair Project Assessments (FIRPA) are a long-term and on-going program to determine the current state of each Port facility and the resources required to bring the facility into a state of good repair. FIRPA will assess a number (i.e., five to ten) of port facilities every year until all major Port facilities have been evaluated with the goal of assessing every Port facility approximately every ten years.
FW Resilience and Public Realm Planning	\$ -	\$ 1,600,000	The facility at Pier 45, which is a hub for the commercial fishing industry and supports visitor serving attractions in Fisherman's Wharf, recently experienced a devastating fire that destroyed the historic Shed C (one of four warehouses on the pier). The Waterfront Resilience Program's Multi-Hazard Risk Assessment revealed seismic risks throughout much of Fisherman's Wharf, including older wood structures. The COVID-19 pandemic has seriously impacted tourism-dependent businesses in the area. Together, these events suggest the need to reinvest in and reinvigorate the Wharf. This planning effort will examine community interest towards a plan to attract new investment to the area to improve the public realm, enhance community resilience and support businesses and workers.
Grant Match	\$ 2,000,000	\$ 1,000,000	The Port regularly applies to the federal and state governments for grants, which require a local match. This project will meet two needs – it will support grant match requirements and will also support pre-work such as cost benefit studies often required to obtain grants.
Heron's Head Shoreline Restoration	\$ 1,500,000	\$ -	One of San Francisco's ecological treasures, Heron's Head Park is a 22-acre open space and thriving wildlife habitat located in the City's Southeast Sector. The existing shoreline on the south side of the park is experiencing severe erosion and consequently discharges sediment into the Bay. The proposed project would stabilize the shoreline, improve habitat and biodiversity, and include sea level rise adaptation, as possible. Planning and design are fully funded with prior appropriations, and staff has secured grant funds for construction.
Insurance Deductible	\$ 800,000	\$ 500,000	Property insurance markets are in acisis due to the compounding impacts of climate change and business interruption claims resulting from COVID-19. As a result of these market wide impacts, as well as the Pier 45 fire in May 2020, the Port's insurance deductible has increased from \$750,000 to \$10 million. The Port intends to accumulate funds over time to ensure sufficient funding to cover the deductible in case of future losses.
Ladders & Skylights	\$ 1,000,000	\$ -	The aging ladders and skylights on shed roofs present a safety risk for Port maintenance staff when working on the roofs. This project would improve or replace the most degraded ladders and skylights throughout the waterfront, reducing the safety risk to Port employees.
Maintenance Dredging and Sediment Sampling	\$ 4,800,000	\$ -	Routine dredging of Port berths is required to maintain depths for vessels in support of maritime commerce, including cruise and cargo operations. The frequency at which any given location needs to be dredged varies and is as frequently as annually for key locations such as the cruise terminals at piers 27 and 35. The budget includes funds for pre-dredge testing of sediment required by regulatory agencies to determine the appropriate disposal or re-use option for the sediments. The budget also includes sufficient funds to direct dredged sediments to beneficial re-use such as wetlands restoration, such as the Montezuma Wetlands Restoration in Solano County, when feasible.

CAPITAL PROJECT BUDGETS
(Port Capital Project Fund) 23700

Project Title	FY 2022-23	FY 2023-24	Project Description
Pier 29.5 Office Rehab	\$ 232,000	\$ -	Pier 29.5 office building is a vacant two-story building that requires rehabilitation prior to leasing. This project will repair the sheetrock damage in the lobby and both floors, remove hazardous material, as well as improve the entrance and staircase in the lobby accessed from the Embarcadero. Once finished this office building could potentially increase revenue by approximately \$160,000 annually.
Pier 29.5 Parking Exhaust System	\$ 1,505,000	\$ -	The San Francisco Fire Department (SFFD) has mandated installation of a new ventilation system to continue using Pier 29.5 for parking. To preserve the historic fabric of the facility, a new ventilation system will be installed utilizing existing roll-up door openings and windows to mount exhaust fans that will increase air circulation within Piers 29.5 and 31 bulkheads. The project will also include installation of Carbon Monoxide (CO) sensors to operate the fans.
Pier 45 Shed B and D Repairs	\$ -	\$ 1,700,000	The 2019 FIRPA study recommended a variety of work to address deferred maintenance at Pier 45. This includes repairs and upgrades to the roof, parapet coping, concrete façade, windows, metal doors, and egress doors at Sheds B and D.
Pier 50 Seismic Assessment and Retrofit Pre-design	\$ 3,800,000	\$ -	The project will ensure the Port's fleet of critical personnel and equipment are able to fulfill their disaster response recover operations following a major earthquake, by improving the seismic performance of the Pier 50 drive aisle and sheds A through D. This project also ensures the Port's alternate DOC is operational following a major earthquake.
Pier 64 Sediment Site Cleanup	\$ 1,400,000	\$ -	After identifying sediment contamination at Pier 64, the Port and Responsible Parties performed the sediment investigation and submitted a report of findings to the Regional Water Quality Control Board ('Water Board') in February 2021. Discussions with the Water Board to date indicate it will require additional evaluation of sediment contamination and submittal of an addendum to the sediment investigation report to support the final remediation plan. Once the plan is approved, the Port will enter into negotiations with the Responsible Parties to share the cost of remediation. In addition to the Mission Bay Ferry Landing (MBFL) project mitigation requirement to remove portions of Pier 64 marine debris, the Port is committed to complete the removal of the remaining Pier 64 hazardous marine debris not being addressed by the MBFL project.
Pier 80 Piling and Fendering	\$ 9,400,000	\$ -	This project will replace the Pier 80's current fender system – oversized tires hung from aging and deteriorating marine pilings – with new pilings and procure/install three-foot-tall buckling-type rubber cone fenders along the 1,200-foot east-facing berth. This will reduce operational constraints of the current Roll-on/Roll-off (RoRo) vessels at Pier 80 (terminal) and provide flexibility for additional vessel classes that may call the terminal.
Pier 80 Subsidence Rehab	\$ 750,000	\$ -	Pier 80 is a RoRo facility operated by Pasha Automotive Services which provides an export gateway for Tesla, Inc. to export automobiles to Europe and Asia. This project funds a study to determine the preferred approach to dealing with subsidence that has caused an uneven surface at the facility. The results of the study will guide future requests to fund facility repairs and maintain Pier 80 as a functioning cargo terminal.
Pier 9 (Tier 1 FIRPA)	\$ -	\$ 2,840,573	Pier 9 supports a variety of high-value office and maritime tenancies. As part of the 2019 FIRPA study, this facility was assessed by a multi-disciplinary technical team to identify near and long-term maintenance and repair needs.
Pier 90 Silo Demolition Design	\$ 1,150,000	\$ -	In the course of this assessment, the assessment team identified several urgent repair needs that present a potential life safety hazard to current facility users. The cost of these urgent recommendations is only 20% of the total recommended repair work for the near-term (0-10 year) time period. These recommendations include repairs to the substructure pile and beams, roof, and concrete spalings along the parapets.
Pile Crew	\$ 800,000	\$ 1,600,000	The Pier 90 silos, formerly used to store grain, have been unused since 1989 and have become a life-safety hazard and ongoing maintenance and security expense. The proposed project will design the demolition of the Pier 90 facilities, including the silos and all existing landside structures. After design, additional funding will be requested for demolition.
Project Management Office	\$ 1,800,000	\$ 1,800,000	These funds will be used to hire and maintain a Port-staffed pile worker crew to perform capital repairs on Port piers. The crew consists of seven pile workers, one supervisor, and one crane operator. The Port's analysis indicates that completing pier repairs with Port crews is more cost-effective than having the work done by a contractor. However, finding and hiring skilled professionals for the work can be a challenge. If the Port is unable to fill all needed positions, budgeted funds will be used to put as many planned pier repair projects out to bid as this budget allows. Project locations include Pier 50B, Hyde Street Harbor, and Pier 36 Islais Creek. This crew could also be dedicated to the larger projects such as Wharf J-9 street pile/ apron installation and Pier 35 concrete pile repair.
Resilient Multi-Modal Cargo Way Pre-Design	\$ 3,082,000	\$ 3,082,000	This funding supports the Port's Project Management Office (PMO) staff for the next five years. The PMO manages all Port capital projects and is responsible for driving those projects from inception to construction close out. The PMO staff will play an integral role in the expenditure of approximately \$41 million in stimulus funds on capital projects by June 2024.
			The Resilient Multi-Modal Cargo Way Design project will improve Cargo Way consistent with the City's Better Streets guidelines and serve as an important segment of City flood protection for inland areas. Through additional City department and community engagement, the goal of this funding request is to develop a plan and 25% design for a Resilient Multi-Modal Cargo Way with CEQA and NEPA clearance, and to position this project for future state and federal funding which may offset some of the total estimated project cost of \$30-50 million.

CAPITAL PROJECT BUDGETS
(Port Capital Project Fund) 23700

Project Title	FY 2022-23	FY 2023-24	Project Description
Roundhouse 2 Building Envelope	\$ 8,000,000	\$ -	Roundhouse 2 is a four-story partially occupied office building. The project is intended to enhance and revitalize the Roundhouse building, address its current state of disrepair, and increase the leasing potential of the space. This project includes work to correct deficiencies in the fire-rated construction of HVAC shafts, replace the roof, repair windows for water intrusion, and replace the building's solarium.
South Beach Harbor	\$ 1,522,881	\$ 1,551,908	South Beach Harbor is a full-service marina consisting of 700 slips, a recreational and commercial guest dock, the Pier 40 Maritime Center and South Beach Park. This project will improve various assets within the South Beach Harbor area. Current projects include bulkhead wall, pre-dredge sediment, and improvements to Pier 40. The Pier 40 improvements, which are required by the Bay Conservation and Development Commission (BCDC), include work on the north guest dock, kayak float, east apron public access improvements, jib hoist replacement, relocation of existing hoist, and BCDC application fees.
Southern Waterfront Beautification	\$ 2,222,000	\$ 2,222,000	This fund is designated to finance projects that will improve the southern waterfront. Qualifying projects may include open space, wetland restoration, pier removal, public art, historic preservation, and other similar projects that may arise over time.
Southern Waterfront Pile Removal	\$ 1,956,104	\$ -	This project will remove deteriorated creosote treated piles and wharf areas that are no longer functional in the Southern Waterfront. Port staff has completed pile removal at Islais Creek (2019) and North Apron of Pier 19 (2017) and will prioritize additional pile removal based on water and safety hazards.
Stormwater Trash Capture	\$ 450,000	\$ -	This project will fund the first phase towards installing a full trash-capture device (FTCD) in the municipal separate storm sewer system (MS4) area. There are approximately 543 stormwater inlets in the MS4 area. The FTCDs are required to maintain the state Municipal General Stormwater Permit. The requirement per the permit is to install the FTCDs prior to 2030. There are two types of FTCDs, standard and high flow. This project will evaluate the best option per location.
TI Fund for tenant attraction/retention	\$ 8,078,382	\$ -	This project is an economic recovery initiative and would allow the Port to fund tenant improvements on par with private sector landlords. Historically the Port has relied on tenants to finance these needed improvements, then reduced their rent to offset the improvement costs. This has the impact of discouraging small businesses that might not have the cash or credit to finance such improvements and also reduces rent that the Port receives from these lease agreements.
Waterfront Resilience Program	\$ 1,548,922	\$ 1,581,424	The Port of San Francisco's treasured waterfront is vulnerable to hazards, including urgent seismic risk and increasing flood risks from sea level rise. To protect this resource - from the iconic landmarks, cultural and art destinations, and beautiful open spaces to connected to the Bay, to the diverse maritime industries and businesses, and key emergency, transportation, and utility infrastructure - for future generations, the Port has established the Waterfront Resilience Program. The Program works to ensure the waterfront, and its critical regional and citywide assets, are resilient to hazards - and increasingly accessible to everyone it serves.
Port Capital Budget Funded Projects (without Waterfront Development)	\$ 70,625,513	\$ 24,033,908	
Waterfront Development Projects	\$ 9,078,800	\$ 9,687,800	Levels of spending and associated recoveries within this project directly reflect the expansion of resources, including Port staff, consultants, interdepartmental coordination agreements, and interdepartmental work order agreements, necessary to support the major development projects. The Port will only recover sufficient funds from the developers as is needed to cover actual expenses.
Port Capital Budget Funded Projects (with Waterfront Development)	\$ 79,704,313	\$ 33,721,708
