Police Incidents within the Safety Zone
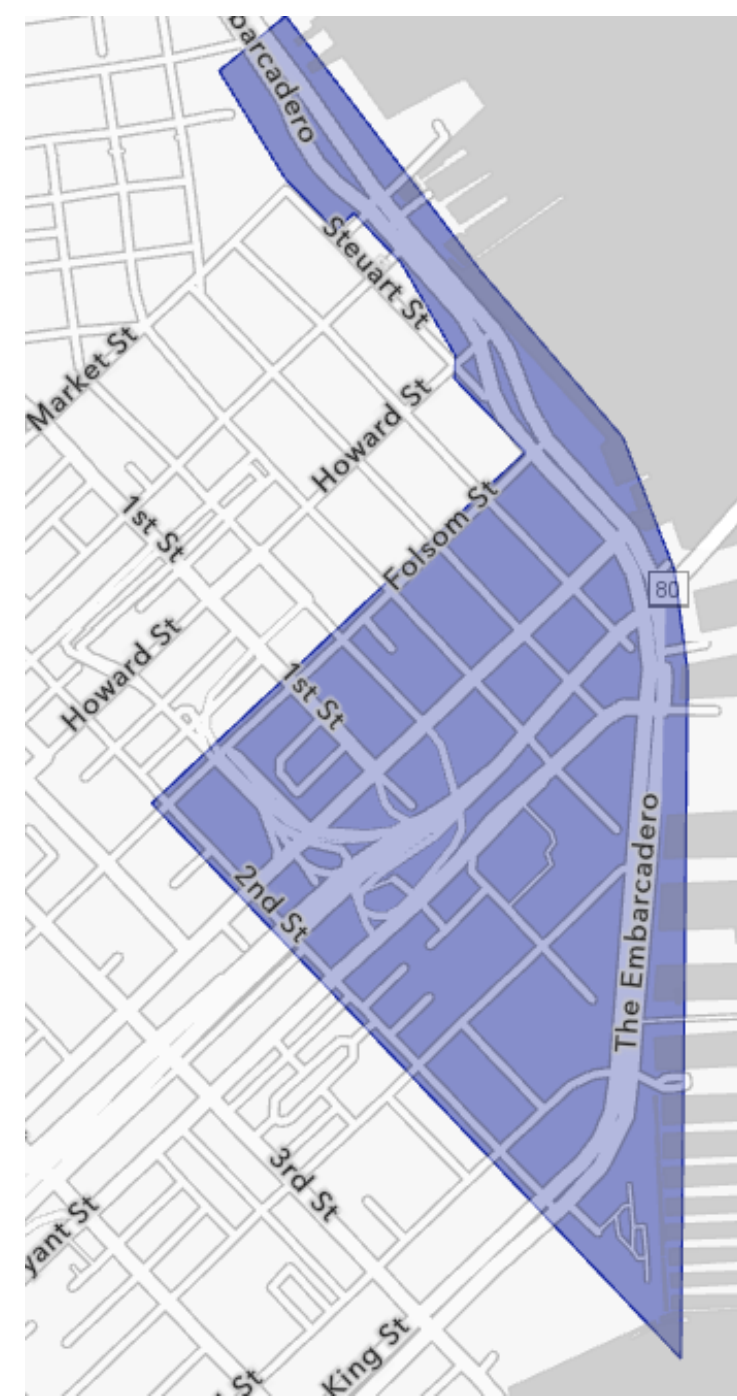

The data shown below is public police incident data from the Open Data Portal here: https://data.sfgov.org/Public-Safety/Police-Department-Incident-Reports-2018-to-Present/wg3w-h783. Incidents within the Safety Zone (shown at the right) are presented below.
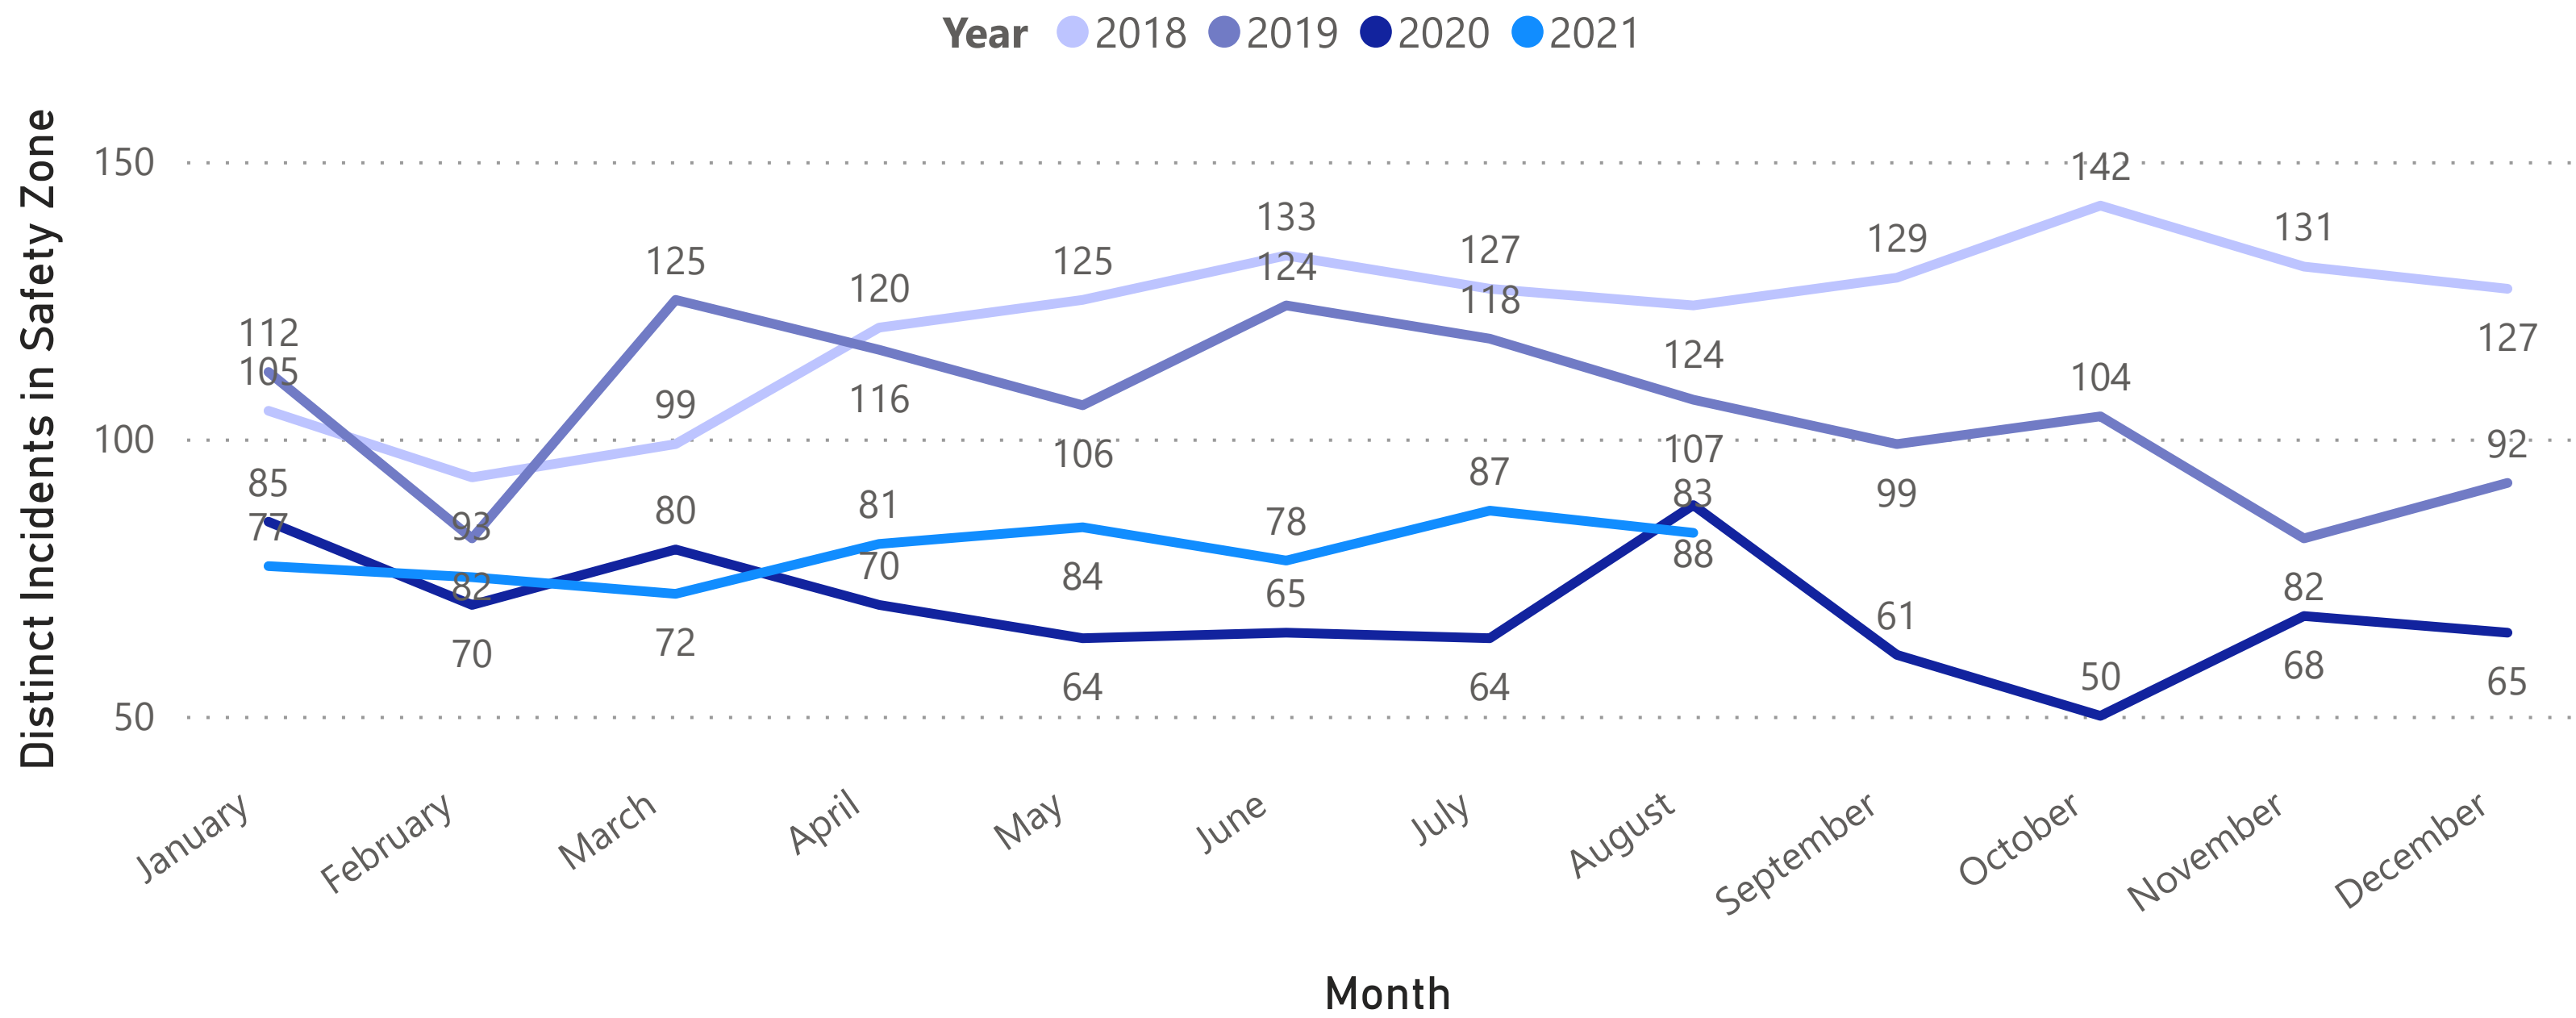

Note: Data was last updated on 9/03/2021, and data is only shown through the last complete month. Counts for previous months may increase in future reporting, as additional incidents may be added to the database.

Distinct Incidents in Safety Zone in Last Six Months

2021 March	2021 April	2021 May	2021 June	2021 July	2021 August
72	81	84	78	87	83

Additional notes: Data provided are distinct incident report counts for the timeframe and geography requested, as aggregated through the publically available incident reports dataset housed by DataSF (link below.) This dataset applies a geo-anonymization technique that places all incidents at a nearest intersection, therefore additional incidents from up to 1 block outside of the noted geographic boundaries may be included in this data. Certain confidential incident reports (for example, restraining order violations, child abuse, and others) may not be included in the data set to protect victims from re-identification. Juvenile data is not included in this dataset per W&I Code Sec 827. Further dataset documentation can be found here: https://bit.ly/2x7Ta2P
