COMMUNITY MEETING #1 OBJECTIVES

1

**March
2019**

Introduction

Mission Bay
Army Corps
Flood Study

1. **Informational:** Learn about the Army Corps/Port of San Francisco Flood Study and related resilience projects and efforts
2. **Participation and engagement:** Engagement activity to better understand what is important/what people care about
3. **Discussion:** Discuss outcomes of engagement exercise and what it means for equity, environment, economy, community, City and regional issues, priorities, and opportunities

This meeting is designed to allow us to better understand the assets and services in the project area and identify what people care about, what they think is most important, what they are concerned about, and what this means to their lives.

WATERFRONT RESILIENCE “GAME OF HAZARDS”

After the presentations, attendees joined Port staff for a mapping exercise and identified the following by placing stickers on the map.

What do you love most about the waterfront?

What assets are the most important to the city?

If disaster strikes, what is of the most concern?

What follows is an overview slide, summarizing the themes from the evening and then notes from each table. The **bolded responses** reflect the highest priorities.
