

Police Incidents within the Safety Zone

The data shown below is public police incident data from the Open Data Portal here: <https://data.sfgov.org/Public-Safety/Police-Department-Incident-Reports-2018-to-Present/wg3w-h783>. Incidents within the Safety Zone (shown at the right) are presented below.

Note: Data was last updated on 8/19/2022, and data is only shown through the last complete month. Counts for previous months may increase in future reporting, as additional incidents may be added to the database.

Distinct Incidents in Safety Zone in Last Six Months

Distinct Incidents in Safety Zone by Month and Year

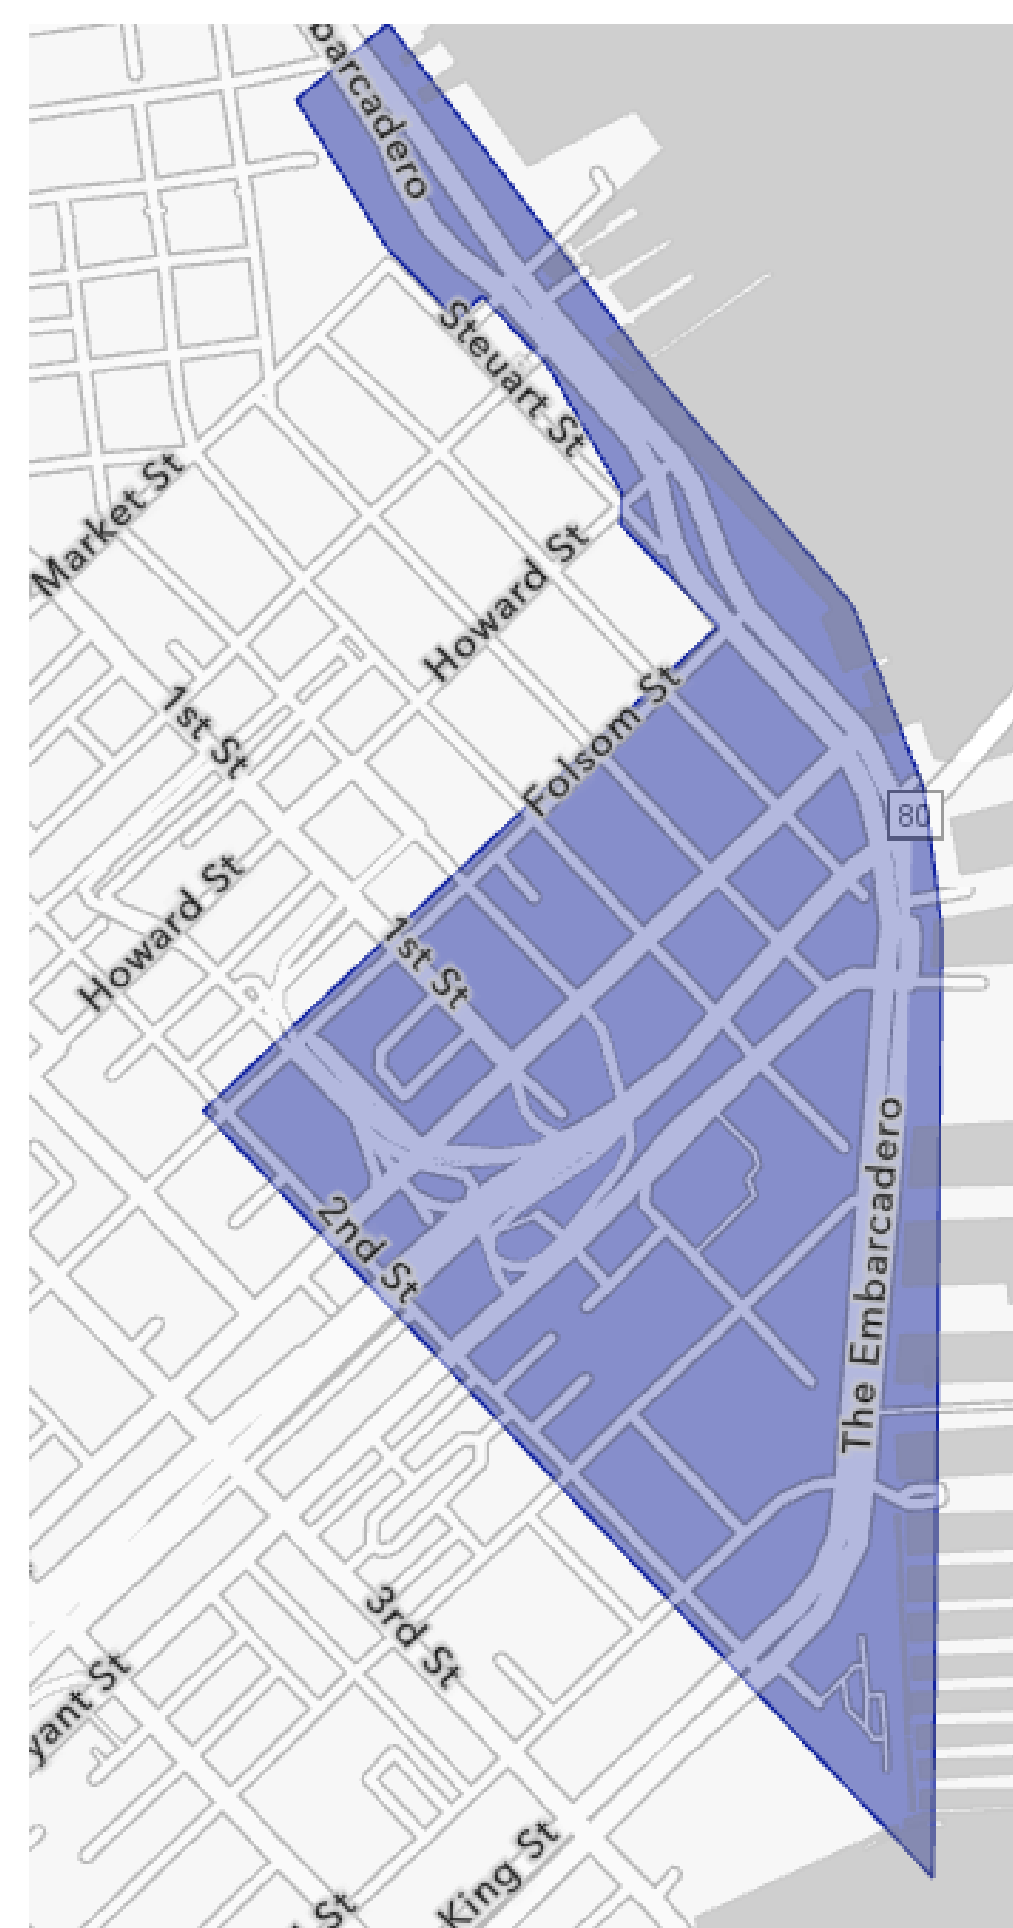

Distinct Incidents - Citywide by Month and Year

Total	91	8,315

Additional notes: Data provided are distinct incident report counts for the timeframe and geography requested, as aggregated through the publically available incident reports dataset housed by DataSF (link below.) This dataset applies a geo-anonymization technique that places all incidents at a nearest intersection, therefore additional incidents from up to 1 block outside of the noted geographic boundaries may be included in this data. Certain confidential incident reports (for example, restraining order violations, child abuse, and others) may not be included in the data set to protect victims from re-identification. Juvenile data is not included in this dataset per W&I Code Sec 827. Further dataset documentation can be found here: <https://bit.ly/2x7Ta2P>
