

Port of San Francisco

Pier 80 Fendering Improvements

OVERVIEW

The goal of the project is to upgrade the fendering system at Pier 80 Berth C to accommodate a larger variety of vessels that include Ro/Ro ships, MARAD vessels, and cruise ships. The new fendering system will also eliminate the need for recurring emergency repair work to keep the berths functional.

The total budget for this project is \$8,000,000.

SCHEDULE

| <u>Activity</u> | <u>Target Date*</u> |
|---------------------------------|---------------------|
| Commence Contract Advertisement | June 2024 |
| Pre-Bid Conference | June 2024 |
| Due Date | July 2024 |
| Notice to Proceed | October 2024 |

*Subject to change

PROJECT SCOPE

New fenders and bollards used for mooring will be installed along the edge of pier 80. The old wood pilings that hold the current fendering system will be removed.

Major Categories of Work

- Structural work to support new fenders at end of Pier 80
- Pile removal
- Fender procurement and installation
