

Port of San Francisco

As-Needed Micro-LBE Set-Asides Construction Management RFQ

OVERVIEW

The Port is seeking two highly qualified Construction Management Professional Services teams to provide contract services on an as-needed basis for some upcoming small to medium budget construction projects including but not limited to Hyde Street Harbor Repair and Improvements, Beltline Building Repair Project, Mission Bay Ferry Landing, and the Pier 7.5 Sewer System Re-routing Project. The Port anticipates awarding two (2) separate contracts, each with a four-year term, and each with a not-to-exceed amount of \$1 million.

The types of work and disciplines associated with these contracts will likely include the following:

CATEGORIES OF WORK	
Construction management	Pre-construction services
Construction submittal and shop drawing reviews	Evaluating and responding to Requests for Information (RFIs)
Inspections and testing	Resident engineer (RE) services
Project closeout
