ADDENDUM NO. 1

Date: April 1, 2019
To: All Prospective Respondents
From: Albie Udom

Please note the following changes to the subject event before submitting your Submittal. Acknowledgement of this Addendum MUST be made in the Introduction and Executive Summary included in your Submittal.

CHANGE 1

MQ1: Experience: The Prime Consultant's qualification and experience requirement has been changed.

Currently, the requirement reads as follows:

Prime Consultants Qualification and Experience

- Prime Consultants must demonstrate a minimum of **three (3)** years of continuous experience obtained on maritime/port related projects within the most recent **five (5)** years;
- Prime Consultants must also demonstrate a minimum of **two (2)** projects completed within the most recent **five (5)** years.

The requirement has been changed and now reads as follows:

Prime Consultants Qualification and Experience

- Prime Consultants must demonstrate a minimum of **three (3)** years of continuous experience obtained on construction management services projects within the most recent **five (5)** years;
- Prime Consultants must also demonstrate a minimum of **two (2)** projects completed within the most recent **five (5)** years.

CHANGE 2

MQ2: Licenses: The Prime Consultant's license requirement has been changed.

Currently, the requirement reads as follows:

Each Prime Consultant must possess a valid and current State of California Professional Engineer's license, which must be listed in the Submittal.

The requirement has been changed and now reads as follows:

Each Prime Consultant's Construction Manager that will work and/or oversee Port's projects must possess a valid and current State of California Professional Engineer's license, which must be listed in the Submittal.

All other terms and documents remain unchanged.
